

A. & M. ESTIMATE IS CUT \$250,000

SENATE FINANCE COMMITTEE IN ECONOMICAL MOOD AND COLLEGE SUFFERS.

KENNEDY BILL PASSES HOUSE

Provision for Direct Election of Senators Goes Through Ahead of Kirby Measure.

Austin, Aug. 1.—A new turn was taken in the matter of the confirmation of the prison commission late this afternoon when Representative W. L. Hill of Huntsville submitted to the attorney general a legal brief, insisting that the confirmation of Messrs. Brahan and Tittle as members of the commission in this special session is not necessary in view of the fact that they were confirmed in the regular session. Governor Colquitt insisted that there was nothing in Mr. Hill's contention.

Messrs. Brahan and Tittle were confirmed in the regular session. The confirmation was had on January 20. Mr. Hill insists that that makes their confirmation unnecessary. The governor says that he sent in the names of Messrs. Brahan and Tittle January 17, as vacation appointees and as appointees under the statute and not under the constitutional amendment adopted. He believes that their confirmation was for the statutory and not the constitutional office and that as he did not name Chairman Cabell at that time, all three names must now be submitted. Some lawyers who have looked into the point agree with Mr. Hill and against Governor Colquitt. In the attorney general's department it is said that more information is before the department than when the original opinion that all three commissioners must be confirmed at this time was given.

The house passed to engrossment the Kennedy bill providing for the direct election of senators. From an early hour this morning the battle waged on the floor of the house for the Kirby and Kennedy bills. With a few amendments the Kennedy bill was passed over the Kirby measure. The bill now engrossed provides for election by majority vote, provision for second primary when no majority in first, limitation of campaign expenses to \$5000, this including all the expenses of the candidate, his friends and his committee, and provision for appointment by the governor in case of vacancy during the session of congress, providing that an election must be called within sixty days.

For many hours the house wrangled over methods of thwarting any plans Governor Colquitt might have on the United States senate. All were rejected. Many were arguing that it was impossible to run for the senate when the bill was passed.

Louis Wortham, chairman of the house appropriation committee, stated that the total of the appropriations passed disregarding miscellaneous items, would be \$16,600,000 and the entire total not more than \$13,000,000. This is about a million less than Governor Colquitt figured in basing his estimate of a state tax rate at 3 1/2 cents, and if they stand will lop off approximately 10 cents.

The senate finance committee was in an economical mood, and the A. & M. College was the principal sufferer, as some \$250,000 in various items were cut out of its estimate. The committee went on the assumption that the tax rate to be high and therefore there is wisdom in holding the bill to actual necessities, especially in view of the fact that Chairman Willy and Governor Colquitt have had a heart to heart talk about the matter.

Efforts to hold the M. salary allowances down to those of the previous appropriation bill failed, but the estimate of \$200,000 for an agricultural building was cut to \$150,000. The mechanical engineering building is recommended as a possibility from the feed control fund and is not to be paid for out of the general revenue, there being a \$75,000 reduction here. A civil engineering laboratory to cost \$25,000 was provided for in the same way. Other reductions amounted to \$75,000, among them \$20,000 for teaching new branches of agriculture, and \$10,000 of the \$20,000 for experiment station work each year. Senators Austin and Nugent always led the fight for the larger amounts for the college. Its original estimate was \$1,275,000. Sam Houston Normal was cut \$65,000.

Redeem A. & M. Bonds.
Austin, Aug. 1.—When the comptroller issued the warrant for the \$486,250 penalty money of the Standard Oil company it was deposited in the state treasury, the special fund from which it was provided that the bonds of the A. & M. College amounting to \$205,000 be taken up, ceased to exist. This was the gist of an opinion by Attorney General Llewellyn, handed to Representative Llewellyn.

As submitted to the legislature, the governor's suggestion was to the effect that the bonds should be redeemed.

Henry Introduces Bill to Make Gatesville Changes

Austin, Aug. 1.—The bill introduced today by Henry of Wichita relative to the control and management of the state training school at Gatesville provides that its name shall be changed from the State Industrial School for the Training of Juveniles to the State Industrial School for Boys. The management shall be in the control of a board of six persons, to be named by the governor; two to serve for two years, two to serve for four years and two to serve for six years, the length of the term to be determined by lot, after being appointed by the governor, and two directors then to be appointed each two years to serve for a term of six years.

The superintendent is to be selected solely by the board; he is to have full authority to employ and discharge em-

Evelyn Thaw Files Voluntary Petition in Bankruptcy

New York, Aug. 1.—Evelyn Nesbit Thaw, Harry K. Thaw's wife, filed a voluntary petition in bankruptcy in the federal district court here this afternoon. Her liabilities schedules at \$8054, her assets at \$250, represented by household furniture. Her chief creditors, she states, is a woman's tailoring establishment, to whom she owes \$2534 for gowns and a firm of silversmiths who recently obtained judgment of \$2569 against her.

Demonstrates That the Voting Machine May Be Controlled

Chicago, Aug. 1.—Nine ways in which a voting machine might be tampered with and so controlled that the intentions of the voters would not register as he desired, were demonstrated today by Professor Dupuy of Lewis institute, before a legislative investigating committee. There were five ways in which the election officers could tamper with machines by getting at the inner mechanism through drawers at the back of the machines.

Newsies at Dallas Threaten Strike if Murder Extras Stop

Dallas, Aug. 1.—Newsboys of assorted sizes made a demonstration today, carrying a home-made banner, and threatened to strike if the "murder extras" of the past few days are not continued. Business has been so good, explained a 10-year-old financier, that they could not sell the "regulars" any longer.

Laundress Wants \$50,000 of Prince

Los Angeles, Aug. 1.—Mrs. Laura Melcher, proprietor of a laundry at Vienna, appeared today before a federal immigration inspector relative to her alleged claims against Prince Stanislaus Sukowski, a nephew of the grand duke of Berlin, a son of a noble Austrian house. The prince was quietly married last Monday night to Miss Marie Louise Freede, daughter of a retired millionaire.

No Smoking in New York's Street Cars

New York, Aug. 1.—Smoking in all type of cars in New York except the old-style open cars in summer, was prohibited today by the public service commission. The order also prohibits smoking or carrying lighted cigars, cigarettes or pipes on station platforms, stairways, waiting rooms and car barns of all traction lines in New York. For some months past an anti-smoking crusade has been waged by certain societies and individuals.

Increase of Sweet Potatoes in South

Washington, Aug. 1.—Growing and handling sweet potatoes, especially in the south, was discussed in a special bulletin issued today by the department of agriculture. It is stated that the money value of the crop of 1909 was more than \$14,000,000 of which 90 per cent came from the south. Both the acreage and the value of the crop increased rapidly in the south in the last few years.

Fringes on Cowboy Suits Cause Deaths

New York, Aug. 1.—Twelve children have been burned to death in Brooklyn this summer while wearing fringed Indian and cowboy suits. The death today of the twelfth victim, a 5-year-old boy, caused a coroner's physician to warn parents against letting children wear costumes with inflammable fringes.

Six Year Old Boy Attempts Murder

Chicago, Aug. 1.—Genero Raffaele, 6 years old, confessed today that he shot and mortally wounded James Paulino, 5 years old, yesterday. Genero said he shot James because the latter struck him on the head with a stone.

MANUFACTURERS FAIL TO REPLY

QUESTIONS SENT OUT BY SENATE FINANCE COMMITTEE BRING FEW ANSWERS.

SENATOR LA FOLLETTE'S IDEA

Thinks They Are Satisfied No Harm Will Be Done or Are Not Frank.

Washington, Aug. 1.—Most of the manufacturers of the country have ignored the list of questions sent them by the senate finance committee in regard to their industries and the probable effect upon them of the democratic tariff revision. Senator La Follette told the senate today that only sixty-six replies had been received to the 2000 sets of questions mailed by the committee to manufacturers who had protested against proposed rates of duty and suggested that the manufacturers must be confident of not being hurt by the new tariff or were not altogether frank.

Senator La Follette, originator of the idea of sending out the questions with the hope of throwing light on tariff revision, had his own list mailed along with that of the committee. He declared the few replies received afforded little information, particularly concerning the comparative cost of production in the United States and in competing countries.

The senator's remarks, his first during the tariff debate, were made in opposing an attempt of Senators Dillingham, Paine and Galling to increase proposed duties on granite. The amendment was defeated 19 to 14. Earlier in the day Senator Gronna concluded his criticism of the tariff bill and Catron of New Mexico attacked it as a dangerous piece of legislation.

PROBE GOES TO HOUSE

SENATE COMPLETES EXAMINATION OF EX-LOBBYIST MULHALL.

House Committee Will Take Hold of Investigation Next Week—To Produce Heat.

Washington, Aug. 1.—The senate lobby committee today completed the examination of M. Mulhall, ex-lobbyist for the National Association of Manufacturers, and his action will be transferred next Tuesday or Wednesday to the house.

The house investigation, it is believed, will produce more bitterness than that which has characterized the senate investigation, which has been devoted largely to reading of letters in which reference was made to Mulhall's alleged relations with members of congress.

The senate committee released Mulhall today only after a brief examination by attorneys for the National Association of Manufacturers.

Chairman Garrett of the house committee and his associates on the house side propose to begin with a searching examination of Mulhall. His letters will be identified and bulk and Mulhall then will be put upon a direct examination as to his alleged activities in legislative matters and elections.

"We will first take up his charges affecting members of the present house," said Chairman Garrett, "then his references to members of former congresses and to employees of congresses, and finally his alleged connection with legislation."

Former Congressman James E. Watson of Indiana, the target for much of Mulhall's attack before the senate committee, will take the witness stand before the senate committee Monday morning to present his case.

Officers of the National Association of Manufacturers, who have been named in the Mulhall letters as engaged in a general effort to control elections and legislation, also will be heard next week.

LEO FRANK IS ON TRIAL

Accused of Murdering Mary Phagan, Aged 14, at Atlanta—Child Was Assaulted.

Atlanta, Ga., Aug. 1.—Mary Phagan, factory girl, 14 years old, was criminally assaulted before she was killed in an Atlanta pencil factory last April, according to the testimony of Dr. F. H. Harris, secretary of the state board of health, who testified today in the trial of Leo M. Frank, former superintendent of the factory, who is charged with the murder of the girl. The witness also testified that she was choked to death and that she was killed within a short time after having eaten lunch.

At the opening of the afternoon session, Judge L. S. Roan reserved his previous ruling which excluded testimony tending to show whether others connected with the factory, aside from the defendant, were nervous and excited after the discovery of the crime.

Assumes Liquidation

Austin, Aug. 1.—Commissioner of Insurance and Banking W. W. Collier announced this afternoon that the Winters State Bank of Winters, Tex., has assumed the liquidation of the affairs of the Farmers and Merchants State Bank of Winters, which the department closed a few days ago because of a shortage and that under the liquidation agreement, no assumption of the guaranty funds of the state and no use of any money in the guaranty fund to pay off the depositors of the bank is necessary.

Ambassador Wilson Still Defends Huerta

Henry L. Wilson, American ambassador to Mexico, has come back to the United States still a supporter of the government of President Huerta in Mexico. He told newspapermen on his arrival Friday in New York that he had sent the dispatch to American consuls urging "general submission and adherence to the new government, which will be recognized by all foreign governments today," the day Huerta was recognized as provisional president.

"I sent that dispatch," said he, "stand by it all."

The ambassador went on to Washington to see President Wilson and Secretary Bryan, who had called him from Mexico to consult about the situation there. It was believed in Washington he would never return.

RAIN IS GENERAL.

Crops Considered Safe—Will Help Water Supply.

With general rains falling over Central and West Texas, crop conditions may now be considered fairly safe. According to reports received last night by long distance telephone, good rains fell throughout this part of the state, and at an early hour this morning the precipitation had not stopped.

In addition to crop needs, many parts of Central Texas have suffered from a diminishing water supply, which has been caused by the extreme dry period lasting for over a month. It is believed that the rain of last night will remedy this condition to a great extent.

The Weather

Big Sandy, Tex., Aug. 1.—J. B. Matheson, charged with killing J. B. Wyatt at Hawkins July 19, was yesterday granted bail in the sum of \$5,000 by Judge R. W. Simpson.

The mercury didn't run up as high yesterday as usual, stopping at 101, three degrees below the hot mark of the day before. Dr. Block says the hot spell is broken, and fans and ice water will go down to par.

Local Temperatures.
Local temperatures, furnished by Dr. Block, voluntary weather observer, for the twenty-four hours ending yesterday at 7 p. m.: Maximum, 101; minimum, 75; barometer, 30.65; humidity, 85. Clear today, and decidedly cooler, with seasonable weather for next week.

State Report

Central and West Texas received a general rain yesterday afternoon and last night, and at a late hour this morning there were indications that the downpour was extending into South Texas. Reports from Mart, Moody, McGregor, Crawford, West, Riesel, Lorena, and other points indicate that McLennan county was thoroughly covered.

There was a slow but steady downpour lasting several hours reported at Dallas, Dublin, Brownwood, and Comanche, with rain threatening this morning at Austin, Houston and San Antonio.

Washington Forecast

Washington, Aug. 1.—Forecast Waco and vicinity. Scattered showers Saturday, probably fair Sunday; light variable winds on the coast.

ON LOCK AND DAM WORK IS SLOW

VERY LITTLE WAS DONE DURING JUNE AND PART OF JULY.

COFFERDAM IS TEN FEET HIGH

Fills When River is Up—Lock is Only Three-fourths Completed—Soon to Start on Dam.

That the work on the lock and dam on the Brazos has been slow and long drawn out has been a matter of comment for some time. Those who have been watching the progress of the construction believe that if the work was pushed with facility that there would be more results accomplished.

That there is general dissatisfaction at the tardiness with which the construction is being carried on, is shown by the expressions of all who have visited the place. James E. Horne, who lives adjacent to the dam site, says that better progress could be made, and when Congressman Henry visits Waco he is to be asked to see if some action cannot be taken to get the work pushed.

As a result of a year and a half's work on the lock and dam on the Brazos and an expenditure of \$200,000 the lock is three-fourths completed and the preliminary steps are being taken to start across the river with the dam proper.

The work has been delayed, altogether, about six months on account of overflows of the coffer dam, which filled the lock with mud, and about \$10,000 has been spent in actual wages for clearing out these mud deposits. In addition to this amount, there is a heavy loss in fixed charges, such as salaries for engineers, foremen and commanding officers, which continued on during the time when work was stopped by the overflows.

The cofferdams were built ten feet high. Most of the overflows which have caused the damage have been under thirteen feet and could have been prevented by cofferdams five feet higher. It is claimed that the additional cost of raising the coffer dams would have been greater than the loss suffered at their present height.

The average number of men at the dam has been about 120, but the number has run as high as 250. They are paid \$2 a day and expenses. During the first part of July of this year work was discontinued on account of the overflows, and was resumed on July 20. The overflow of mud from the lock has been now cleared out. It takes a gang of fifty men about two weeks to get the mud out and put the lock in a condition where actual construction can be resumed.

Captain Harris, engineer in charge, will return from delivery today, where he has been for the past few weeks. Captain Harris is the third officer who has been in charge of the construction, having been preceded by Captain Lane and Captain Schuster.

CUT EXPRESS RATES

CALIFORNIA RAILROAD COMMISSION FORCE WELLS FARGO TO GIVE UP \$750,000.

San Francisco, Aug. 1.—The State Railroad commission of California ordered reduction today in the express rates of Wells Fargo & Co. amounting to a cut of \$750,000 from present annual revenues. Every rate of the company in this state is abolished by the order, which is effective October 1, and 3,000 new rates devised by the commissioners ordered effective at that time.

At present, the commission finds, the company makes a net yearly profit of \$842,007 on a property valuation estimated at \$613,233, or 136 per cent. The finding pronounces the company "parasitic on the railroads" and suggests that instead of appealing to the Interstate Commerce commission for permission to increase rates, the railroads "look into this express situation."

GRANGER WANTS INTERURBAN

Delegation From Town Calls Upon Southwestern Traction President.

Temple, Aug. 1.—A delegation of Granger citizens and business men, headed by R. H. Murrah, secretary of the Chamber of Commerce, paid this city a visit in autos yesterday and held a conference with President A. E. Bentley and other officials of the Southwestern Traction company relative to including their town on the line of the interurban that is to be built between Temple and Austin by the company. Two routes have been surveyed but the company has not as yet selected the one it will use. It is said that the advantages possessed by both are so nearly equal as to make the choice a toss up. One of the routes includes Granger and the other leaves it to one side by some miles. The visitors expressed themselves as well pleased with the result of their conference.

TRIAL AT CORPUS CHRISTI.

State and Defense Announce Ready and Selection Jury Begins

Corpus Christi, Aug. 1.—Both the state and defense this morning announced ready for trial in the J. W. Walker murder case and the selection of a jury began. A prominent business man in Corpus Christi, charged with the murder of Louis Shirar, his brother-in-law and business partner, in April, 1912. Mrs. Walker was injured at the time by a stray bullet, necessitating the amputation of one arm. The defendant claims self-defense.

EUROPE IS NOT PRESSING ACTION

PRESIDENT TELLS INQUIRERS NATIONS BUT DESCRIBE CON-DITION IN MEXICO.

ARE STILL HOPEFUL OF PEACE

Conditions Look Favorable—Ambassador Will Not Appear Before the Committee.

Washington, Aug. 1.—Developments in the Mexican situation today were confined to efforts on the part of the administration to prevent unnecessary agitation over the revolution.

So far as the United States is informed, both federals and constitutionalists are complying with the desire of the American government for the protection of foreigners and their property and there is a hopeful feeling manifest in official circles that efforts of influential Mexicans to bring about peace may be successful.

In the meantime President Wilson and his advisers are opposed to any attempt to force the American government into any hasty declaration of policy.

Promptly denied today a story that European governments are pressing the United States to take action. On the authority of the president himself it is known that the only documents from foreign powers to the United States on the subject in recent months were those transmitted when the diplomatic representatives in Mexico recently gave public to the American government the request that the information be conveyed to the United States. The president has told inquirers within the last twenty-four hours that in no case was there any suggestion or intimation of action desired, but merely a recital of conditions.

To prevent any aggravation of the situation, which in the view of officials here is slowly adjusting itself, the administration does not look favorably on the proposal to have Ambassador Wilson appear before the house committee on foreign affairs. Administrative officials did not think it compatible with the public interest to have Ambassador Wilson appear before the senate committee on foreign affairs to submit reports he had made, but because the feeling is growing among them that he is a factor in promoting objectionable discussion in Mexico.

The ambassador is known to hold views at variance with those of the president and Secretary Bryan and it is said on good authority that information in possession of the state department contradicting in many essentials the reports of Ambassador Wilson. For this reason it is believed that the information which the ambassador gave the senate committee, the administration is strongly desirous not to aggravate the situation further, especially since Mr. Wilson is not likely to go back to Mexico as the American ambassador.

News was scant in Mexican circles about the progress of the peace suggestions that are passing to and fro between some of the leaders of the two factions in Mexico. The most significant development was the frequent use of the names of Miguel Alemán, at present Mexican minister to Russia, for provisional president, Covarrubias is an appointee of the Huerta administration, but is not affiliated with any faction in Mexico.

Ambassador in New York.

New York, Aug. 1.—Henry Lane Wilson, ambassador to Mexico, is here waiting for a summons from official Washington before returning to the national capital. He was undecided tonight how long he would remain in New York, but announced his intention of remaining in the country and within call of the president, Secretary Bryan and the senate and house committee on foreign relations.

"The president told me to take a vacation and I am trying to do so, but I am having a hard time doing it," Mr. Wilson said.

Kills American.

El Paso, Aug. 1.—An American ranchman who arrived today from Asah, Chihuahua, states that when he left there Monday evening the outlaw, "El Mocho" Moreno, had just been brought into the camp of General Francisco Villa, to be tried on a charge of killing Ben Griffin, an American farmer, near Madera early last month, and also for threatening the lives of other Americans in the Madera lumber camp and vicinity.

Bank at Waxahachie.

Waxahachie, Tex., Aug. 1.—The Guaranty State bank of Waxahachie was organized here this morning, with a capital stock of \$150,000. The institution will open for business September 1.

Five Fatally Burned.

Hymers, Ind., Aug. 1.—Five men were fatally burned and 15 others dangerously hurt in a dust explosion at Jackson Hill No. 2 mine, three miles east of here late today. It is believed the dust was fired by a windy shot. The mine property was heavily damaged. Rescuers brought out all the injured miners.

Bank at Waxahachie.

Waxahachie, Tex., Aug. 1.—The Guaranty State bank of Waxahachie was organized here this morning, with a capital stock of \$150,000. The institution will open for business September 1.

CURRENCY BILL REMAINS INTACT

AFTER FIVE WEEKS OF STORMY CONSIDERATION GOES AL-MOST UNCHANGED.

HENRY AMENDMENT DOWNED

Will Carry Warehouse Receipt Cur-rency to Fight in Caucus—Inter-locking Directorates Go.

Washington, Aug. 1.—Consideration of the administration currency bill was practically concluded tonight by the democrats of the house banking and currency committee after more than five weeks of constant and stormy discussion.

Monday the democratic members will take a formal vote on recommending the measure to the democratic caucus. It will go to the caucus with the disapproval of at least three members of the committee, it was virtually certain tonight.

As closed tonight, the bill differs little in its essentials from the administration measure framed by Representative Glass, Chairman Owen of the senate committee and Secretary of the Treasury McAdoo, and approved by President Wilson.

Complete government of the federal reserve board, which will direct the new banking and currency system, deemed by the president the all-important factor of the bill, was retained.

At the eleventh hour, democratic members of the committee incorporated an amendment providing for an advisory board of bankers to "advise" the federal reserve board.

Another important amendment incorporated in the bill, altered to require federal reserve banks mutually to rediscount paper. A change was made in the division of the earnings of the federal reserve banks created by the law. Originally, the banks were allowed a yearly cumulative dividend of 5 per cent and a surplus equal to 20 per cent of the paid in capital stock. All earnings above these amounts reverted to the government.

As amended, the balance of earnings, after the 5 per cent dividend and the 20 per cent surplus have been set apart, will be paid, 60 per cent to the government to be used as a sinking fund to reduce the national debt, and 40 per cent to be divided among the member banks in proportion to their balances in the federal reserve bank. The so-called insurgent amendments to the bill providing for currency on warehouse receipts for cotton, corn and wheat were voted down today. Representatives Ragsdale and Henry of Texas will carry the fight for these amendments to the floor of the democratic caucus.

AMERICAN FLAG TRAMPLED

Saskatoon Militiaman Snatches Flag from Girl and Throws It Under Feet of Marchers.

Saskatoon, Sask., Aug. 1.—A Saskatoon militiaman was today tried by court martial and discharged from his regiment for trampling an American flag under his feet during a parade last night. Members of the regiment threatened to resign if the dismissal of their comrade was allowed to stand and the offender at once was reinstated.

When the 105th Fusiliers were marching down the city's main thoroughfare, a girl waved an American flag. A man caught the flag and trampled it under his feet, most of the regiment passing over it also.

Five Fatally Burned.
Hymers, Ind., Aug. 1.—Five men were fatally burned and 15 others dangerously hurt in a dust explosion at Jackson Hill No. 2 mine, three miles east of here late today. It is believed the dust was fired by a windy shot. The mine property was heavily damaged. Rescuers brought out all the injured miners.

Bank at Waxahachie.

Waxahachie, Tex., Aug. 1.—The Guaranty State bank of Waxahachie was organized here this morning, with a capital stock of \$150,000. The institution will open for business September 1.

Business Man Leaves Fortune to Employees

Dallas, Aug. 1.—The contents of the will of the late Charles D. Sias, senior member of the well-known tea and coffee firm of Chase & Sanborn, Roseton, Chicago and Montreal, gives evidence of great-heartedness and personal interest in each individual employee of the firm by a most generous provision, the amount bequeathed aggregating about a quarter of a million dollars.

HUSBAND NAILED RUBBER ON GATES

Wife so Weak and Nervous Could Not Stand Least Noise — How Cured.

Munford, Ala. — "I was so weak and nervous while passing through the Change of Life that I could hardly live. My husband had to nail rubber on all the gates for I could not stand it to have a gate slam."

"I also had backache and a fullness in my stomach. I noticed that Lydia E. Pinkham's Vegetable Compound was advertised for such cases and I sent and got a bottle. It did me so much good that I kept on taking it and found it to be all you claim. I recommend your Compound to all women afflicted as I was." — Mrs. F. P. MULLENDORF, Munford, Alabama.

An Honest Dependable Medicine is Lydia E. Pinkham's Vegetable Compound. A Root and Herb medicine originated nearly forty years ago by Lydia E. Pinkham of Lynn, Mass., for controlling female ills.

Its wonderful success in this line has made it the safest and most dependable medicine of the age for women and no woman suffering from female ills does herself justice who does not give it a trial.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

SEEK JEWEL THIEVES

DETECTIVES ARE WATCHING OCCUPANTS OF HOUSE IN PROVIDENCE.

Thinks is Either Master of Gang or is "Fence" That Disposes of Loot.

Narragansett Pier, R. I., Aug. 1.—Operatives of a private detective agency tonight have under close surveillance the occupants of a residence in a Providence suburb, believing that he was either master of a gang of thieves which recently obtained more than a quarter of a million dollars' worth of jewelry, or that the thieves planned to dispose of their loot. Other detectives are watching another house in South Boston, believing it to be either the headquarters of the jewel-stealing band or the home of their agents.

The suspect in the house near Providence is declared to have obtained the information needed for the robbery of the Charles C. Rumsey house of jewelry worth \$125,000 from the servants, who gave the information innocently.

Paper dolls invented by a Maryland woman are printed on gummed paper so that the backs and fronts can be pasted together, while the feet are arranged to fold out to support the figures.

Soiled Gowns Our Specialty

Ladies should be very careful in sending out their delicate gowns to inexperienced cleaners. We make this work a special feature of our business and are especially equipped to properly and safely clean them, no matter how delicate they may be.

Let us have your next order. Our wagon will call for and deliver your bundle.

Phones: New 2425 or 256. Old 1602.

WACO, TEXAS

CASTRO'S RETURN IS BIG SURPRISE

EX-PRESIDENT'S APPEARANCE IN VENEZUELA STARTLES WASHINGTON.

WAS UNDER SURVEILLANCE

Gunboat Des Moines and Warship Will Proceed Immediately to Venezuelan Waters.

Washington, Aug. 1.—News of the appearance in Venezuela of ex-President Castro, after his five years' exile, caused something of a sensation at the state department today. For the past five years the department has been keeping Castro under surveillance to prevent his returning to Venezuela, which country has been enjoying a period of unwonted prosperity and quiet since his retirement.

Department officials supposed he was living quietly in the Canary Islands until a cablegram came today announcing his re-entrance into the country of his birth, at the head of an armed force, while various uprisings in his behalf were reported from different points in Venezuela. He was said to be at Coro.

From the legation at Caracas the state department was informed of uprisings in the state of Tachira, at Coro and Masuro. Telegraphic communication between the capital and the disturbed points was interrupted, but the Venezuelan foreign office claimed the revolutionists had been defeated by state troops at all points.

The president had been granted diplomatic powers, it was said, and men were being impressed for military service. The United States government is represented in Venezuela at present only by a legation clerk, Richard J. Riggs. Minister Northcutt resigned and left his post. It was announced that a secretary would be named to Caracas to be followed by a regularly accredited minister, as soon as one could be appointed.

The state department today called upon the navy department for a warship to look after American interests in Venezuelan waters and the gunboat, Des Moines, now at Brunswick, Ga., was ordered to make the cruise. It is calculated that the gunboat can make the run to La Guaira, the nearest point to Caracas, in about six days.

A. & M. ESTIMATE IS CUT

Continued From Page 1.

fect that the bonds of the A. & M. College be redeemed with the Standard Oil fine money. Such a bill was introduced into the house and will come up on third reading for final passage tomorrow. Further action on the measure is useless under Mr. Looney's view.

IN THE SENATE

Austin, Aug. 1.—Shortly after convening this morning the senate adjourned to give the senate finance committee an opportunity to work. An adjournment until Monday was first contemplated, but owing to the announcement that senator-elect Oliver would arrive with his credentials, it was decided to recess until 5 o'clock for the sole purpose of allowing Senator Oliver to take the oath of office. No other business will be transacted in regular session.

On Morrow's motion, Warren's penitentiary bill was made special order for Monday morning. Hudspeeth introduced a new blue sky bill and Darwin and Wiley introduced a companion bill to the measure reported favorably from the committee earlier in the week.

IN THE HOUSE

Austin, Aug. 1.—With the Mexico situation cleared up the house began an active consideration of the bills on the election of senators by direct vote this morning. The fight over the Kennedy bill assumed distinct form when the Kirby bill was offered as a substitute. The difference between the two measures lies in the fact that the Kennedy bill demands that a majority of all votes cast at the election for United States senators shall determine and decide the results of the election. The Kirby bill, offered as a substitute, merely provides for a plurality vote for election.

Early in the session a resolution was offered by Kennedy asking Governor Colquitt to submit new legislation embodying the sale of \$3,000,000 state bonds. According to Mr. Kennedy's resolution this money shall be reinvested in county, school, irrigation and other improvement bonds. It is expected to net the state at once \$700,000. The resolution was adopted.

Governor Colquitt's statement made during the bond amendment campaign that the state bonds could be sold, if voted, at a 20 per cent premium, called forth this resolution, which asks the sale of state bonds for the purpose of several funds for the purpose of seeing whether or not the governor's statement was correct. An increase in the interest from 3 per cent to 5 per cent is also spoken of for the several funds if the state bonds are sold.

The new penitentiary bills were introduced by Humphrey appropriating \$2,000,000 to cover the debts of the penitentiary system, and \$1,500,000 for the maintenance of the system during the years 1914 and 1915. The bill by Tillotson and Duffie was another general penitentiary bill.

Henry of Wichita introduced a bill regulating the state institution for the training of juveniles at Gatesville. The house spent the remainder of the morning session in debate on the Kirby and Kennedy bills regarding the direct election of senators.

The arguments for the two resolutions were of a protracted nature. Kirby and Lane spoke in behalf of the Kirby bill. Judge Hunter took the floor in behalf of the Kennedy measure.

Boom Wortham for Governor. Austin, Aug. 1.—Louis J. Wortham, representative from Tarrant county, chairman of the house committee on appropriations and legislator of some years' experience, is being given a boom for the governorship again. Some time ago he was mentioned as not an unwilling aspirant and developments in the last few days indicate that he is considering the matter and has the assurance of support from friends in the legislature.

IT WAS HIS LUCKY DAY

Houston Stockman Who Was Walking Skeleton, Tells About Earth Liquid, Vitalitas.

"You would not think to look at me now that I was ever a walking skeleton, would you?" said Mr. W. C. Thrift, the well-known stockman who conducts sales stables in Houston and whose home is at 1520 Webster street. "Well, I was as near a walking skeleton as one can well be and keep out of the grave. It was Vitalitas that saved me, put me on my feet and has added 80 pounds to my weight. I had stomach trouble and the worst kind. Got to where I could not even eat predigested food or soft boiled eggs. My doctor at last told me that at the end of his string. I had heard of Vitalitas and made up my mind to try it. Was told it was a natural substance taken out of the earth—would put life into a fellow, no matter if he was about gone and would work diseases out of him. I did not believe it, but tried it anyway. It was the luckiest day of my life when I got my first supply of Vitalitas. It is the greatest thing in the world. I don't know what it won't do, but I do know it will cure stomach trouble, rheumatism, kidney troubles and a lot of other things and will put new life right into you."

Every drop of Vitalitas is health-giving and disease banishing. It is just as nature made it and is free of any injurious ingredient. Taken into the system it quickly banishes all derangements of stomach, liver and kidneys and blood. It revitalizes every organ and tones the entire body.

You can see how Vitalitas is extracted and can sample it at the display today at Powers-Kelly Drug Co. (Advertisement.)

ARREST U. S. OFFICERS

CHARGED WITH BLACKMAIL BY MEXICAN AT NEW ORLEANS.

New Orleans, Aug. 1.—G. Raymond Matthews, special agent of the United States department of justice; J. L. Mott, his assistant, and Ernesto Fernandez, a representative of the New Orleans office of the constitutional faction in Mexico, were arrested here tonight on the charge of blackmail.

All were in jail at a late hour tonight, having failed to make bond. The arrests resulted from an appeal made to the local police by Edmundo Castillo Brito, former governor of the state of Campeche, Mexico, who stated that he had been approached by one of the three with the copy of a telegram, which purported to have come from Washington signed "McReynolds," ordering Brito's arrest.

United States Marshal Walter Guion admitted tonight that he had received a telegram ordering the arrest of a certain person. He said he had shown this telegram to Special Agent Matthews. When questioned, Matthews denied having seen such a message. Mr. Guion refused to disclose the name of the person to be arrested, as the arrest was made under the name of "McReynolds."

The following is the copy of the telegram used which the police and Brito say is a fake:

"Washington, July 30.—Cause arrest of man, C. Brito, who left Belize, Honduras. Charge murder under article 12, statute 21. This man must be apprehended at any cost."

"MREYNOLDS."

OPERATION ON CHIEF JUSTICE

Will Have Cataract That Has Formed on Right Eye Removed.

Austin, Aug. 1.—Chief Justice T. J. Brown of the supreme court of Texas will undergo an operation on his right eye on Monday for the removal of a cataract that has formed and become detrimental to his sight. The cataract also has formed on the left eye, which will not be removed until a later date.

It is believed that Judge Brown will not be able to use his eyes for two weeks or longer.

Columbus, O. Wants to Insure Against Any More Floods

Columbus, Ohio, Aug. 1.—The board of directors of the local Chamber of Commerce tonight adopted a resolution directing Secretary F. H. Hysell to open negotiations with insurance companies with a view to finding out what it would cost to procure insurance against a repetition of the floods of last March. Property loss alone in this city at that time was estimated at \$5,000,000.

IS QUIET AT CALUMET.

Armed Guards Withdrawn—Fear of Dynamite Plot Abated.

Calumet, Mich., Aug. 1.—Armed guards have withdrawn from patrolling the Portage Bridge between Houghton and Hancock, the fear of authorities that there was a dynamite plot on foot in connection with the strike of copper miners, having subsided somewhat.

It had been asserted by the officers in charge of the strike patrol that an attempt was on foot to sack the explosive vaults of the mining companies and a corps of soldiers was placed on the bridge to scrutinize all persons passing.

Commercial conditions in the strike zone are steadily growing worse.

STORM IN PENNSYLVANIA.

Stroudsburg Visited by Unprecedented Rains and Damage Resulted.

Stroudsburg, Pa., Aug. 1.—Stroudsburg and the Delaware Gap this afternoon were the center of a storm unprecedented in this section of the state. Seven and one-half inches of rain fell between 12:30 and 3 o'clock, doing damage of more than \$100,000. No loss of life has been reported.

Miles of track were washed out on the Delaware, Lackawanna and Western, the Pennsylvania and the New York, Susquehanna and Western.

KATY CASE WILL COME TO WACO

FINAL ADJOURNMENT OF DALLAS HEARING TAKES PLACE.

NICKELS SAYS HE IS PLEASED

Valuable Documentary Evidence Secured by State in Hearings—Reconvenes August 7.

Dallas, Aug. 1.—Friday saw the first phase of the battle involving the charter of the Missouri, Kansas and Texas of Texas and six allied lines and penalties ranging from \$1,000,000 to \$15,000,000 close with final adjournment of the Dallas hearing at 9:30 a. m. Hearing in the case in which the state attacks the constitutionality of the measure of the last legislature authorizing consolidation of the various lines' interest will be reconvened at Waco August 7, at which time matters dealing with the management of the Texas Central railroad, alleged by the state to be a subsidiary of the Katy, will be entered into.

Assistant Attorney General Luther Nickels is of the opinion that the hearing in the case as far as Dallas is concerned is finally closed, but before leaving for Austin will look into the matter and see if there is anything else that the state will want introduced at this time.

General Manager W. A. Webb of the Katy of Texas and the Katy north of Red river, was recalled to the stand Friday morning. His testimony dealt largely upon the manner in which the common officers of the allied lines were paid. He testified that from October 1912, to April 1913, he was general manager of the Katy of Texas and of the six allied trades; that he received one voucher in payment for those services as well as that of general manager of the Katy north of Red river.

Mr. Webb did not know the manner in which President Schaff of the various lines interested was paid, but testified that both he and General Superintendent H. P. Anderson were paid by a single voucher issued by the treasurer of the Katy of Texas. Since April 1913, Mr. Webb has been general manager of the Katy of Texas and the Katy north of Red river.

On advice of counsel Mr. Webb refused to produce the register of passes issued by the Katy, as requested by Mr. Nickels, but he offered to allow Mr. Nickels to go to the Katy general offices and make a copy of the register.

"Mr. Webb, are you a member of the Commercial Secretaries' Association?" "No, sir, I am not," was the answer, "and so far as I know, the Katy has never contributed to the support of the Commercial Secretaries' association. I would know if anything like that had been done."

"Do you know Homer D. Wade?" "I knew Mr. Wade when he was industrial commissioner of the Texas Central. At that time I was general manager of that line. The Katy at present has an industrial commissioner with four or five men working under him."

The examination of Mr. Webb closed at this point, and final adjournment took place. Assistant Attorney General Nickels declared that the hearing had been exceedingly successful from the state's standpoint; that the only witnesses examined were officers for the defendant's lines, and that their testimony in the main had carried out the contentions of the state. "The most valuable evidence introduced at this hearing, in my opinion, was the documentary evidence, which goes far towards bearing out every issue in the case, unless it is overthrown by something that has not yet developed," he said.

Women Police Appointed.

Chicago, Aug. 1.—Mayor Harrison today appointed ten policewomen in accordance with a recent order passed by the city council. They will be assigned to duty at public bathing beaches and dance halls. Their uniforms have not yet been decided upon.

Southern States Cotton Corporation

"15 Cent Cotton"

- Finances have been perfected for the purchase of all the cotton which may be offered.
- The Southern States Cotton Corporation will pay each and every day from August 1st, 1913, to August 1st, 1914, 15 cents per pound, basis middling, for all cotton tendered it under the terms of its selling contract.
- No grower of cotton need take less than 15 cents per pound for his product.
- Sell your cotton to this Corporation, or if not, then require the purchaser to pay you as much as this for it.
- This year is the first time in the history of the South when cotton can be sold by the owners.
- Heretofore the price has been fixed by the buyer.

Southern States Cotton Corporation DALLAS, TEXAS

NEW ORLEANS LEADS IN LUMBER

Regains Supremacy of Gulf and South Atlantic States in Export Trade.

New Orleans, Aug. 1.—New Orleans regained supremacy as the leading lumber export city of the gulf and South Atlantic states for the fiscal year of June 30, 1912-13, with Gulfport second, Mobile third and Pensacola fourth, according to comparative figures made public here today by the New Orleans Lumber Trade Journal.

Uniform gains from the entire country as well as the gulf ports are shown. The principal increase in exports being to the United Kingdom, which took 107,000,000 feet more than year before last. While China increased its purchases from 22,000,000 to 38,000,000 feet, Argentina's shipments decreased from 22,000,000 to 24,000,000 feet.

The total exports of timber shows a marked gain of 48,000,000 feet year before last to 511,000,000 feet for the year just closed. Galveston, Norfolk and Baltimore showed substantial gains as compared with the previous year. The four gulf ports named shipped 43 per cent of the total exports, as against 42 per cent the previous year, and of the total gain over the preceding year 55 per cent accrued to them. Galveston's shipments increased from a little more than 2,000,000 year before last to nearly 6,500,000 feet for the year just closed.

INSTITUTE ELECTS OFFICERS

Attempt is Made to Have Farmers Go on Record as Favoring Women's Suffrage.

College Station, Tex., Aug. 1.—An attempt to inject the suffrage question into the Texas Farmers' institute failed this morning when President Kone overruled a motion made by Mrs. Rebecca Hayes of Alvin providing that the institute place itself on record as favoring equal rights for women.

Following the election of officers this afternoon the institute adjourned. Ed R. Kone of Austin was chosen president, Fred R. Cockrell of Abilene first vice president, George A. Smith of Beaumont second vice president and Mrs. Benigna Kaib of Houston secretary.

The executive committee is composed of C. B. Metcalfe of San Angelo, C. C. Bailey of Midland and T. A. McGalliard of Garza.

Resolutions requested the complete divestment of the Agricultural and Mechanical college from the university and an equitable division of the permanent university funds. Adequate financial support for all educational and other state institutions also was asked.

Corn Club Directors Meet.

Washington, Aug. 1.—Thirty state and district agents and boys' corn club directors, engaged in farmers' cooperative demonstration work throughout the south, arrived here today to attend a week's conference at the department of agriculture to report on their past year's work and discuss future plans.

The conference will last until next Thursday. Those attending include W. F. Proctor, J. L. Quicksall and H. H. Williamson, Texas.

Engineer Dismissed. Stamford, Conn., Aug. 1.—The charge of manslaughter against Charles J. Doherty, engineer of the Springfield Express on the New Haven road, who was blamed for the wreck here on June 12, resulting in the death of six persons, was dismissed today. The coroner's finding had exonerated the engineer from criminal responsibility.

AUTOMOBILE SHIPMENTS.

Amount to \$40,000,000 Out of United States, Against \$1,000,000 in 1903.

Washington, Aug. 1.—Automobiles and automobile parts to the value of \$40,000,000 were shipped from the United States in the past fiscal year, as against \$1,000,000 worth in 1903, according to figures by the bureau of foreign and domestic commerce. Of last year's shipments \$28,500,000 were in finished automobiles. Canada was the largest buyer, taking 7,200 cars, valued at \$9,200,000. England bought almost 4,000, valued at \$2,000,000. Then came British Oceania, South America, Germany, British East India, France and Russia in the order named. Less than \$2,000,000 worth of automobiles were imported at an average price of \$2,300, while in 1907 more than \$4,000,000 were brought in at an average price of \$2,400.

Mail at Charleston.

Charleston, W. Va., Aug. 1.—A terrific hailstorm swept through the Kanawha Valley late today, damaging crops and prostrating wire communication.

Waco Gin Company Chartered.

Austin, Aug. 1.—The Texas Gin Co. of Waco, with a capital stock of \$100,000, was chartered today, with the secretary of state. The incorporators are M. D. Anderson, W. L. Clayton, B. Clayton.

E.W. MARSHALL & COMPANY

INSURANCE

107 SOUTH FIFTH STREET

TO THE CLIENTS OF THE Dilworth Abstract Co.

If you are the legal owner and holder of any note executed prior to July 14, 1905, secured by any character of lien upon real estate and which matured more than four years prior to July 1, 1913, you must under the Acts of the Thirty-third Texas Legislature bring suit within one year after July 1, 1913, to foreclose and collect the same, or extend the same as noted below, or the note will be barred by limitation on July 1, 1914, and rendered uncollectable by law.

If any note secured by any character of lien upon real estate is extended, the former method of extension by endorsement upon the note is now insufficient. The extension must be by written contract, signed and acknowledged as required by law for deeds, and placed of record; or the same will be within four years from maturity barred by limitation.

The above is merely a brief statement of the law which radically affects all lien-holders, who should promptly refer to their lawyers for further information.

Respectfully,
TOM G. DILWORTH Title Office

Your Comfort

During the hot summer months depend largely on what you eat. First of all, make sure you are dealing with a house that handles only quality food products, and, secondly, make your selections with regard to the season. In order to do that, it is necessary to confine your trading to a house that specializes in tempting seasonal foods. We have labored hard to bring to you such reasonable edibles that might tempt your appetite, yet not strain your pocketbook. And above all, we insist on making any purchase good not found satisfactory.

Your grocery should be

KATE FRIEND, Editor

THE HOME STILL OPEN

AND FILLED WITH INMATES

Although the president and the vice president are absent, the condition of the Home continues satisfactorily. Mrs. H. C. Black is supervisor. The usual number of permanent inmates, also of transients, have been received. Mrs. Clark, the matron, reports sixteen at present with her. Some little sickness has been noted this summer, but nothing of a contagious or a serious nature.

In this connection, is there not some one with an automobile and a leisure evening who could take these old women out for a ride? Remember, they have little of life's pleasures, and but a few short years to live.

JUDGE AND MRS. SPELL

HAVE EVENING GUESTS

In special courtesy to the Misses Spell of Hillsboro, Judge and Mrs. W. E. Spell had invited guests for the first time in their new home. Following the informal feeling of the summer night nothing was prearranged except the diversion of the picture show. The cars of the Misses Spell, Miss Hattie and W. B. Hays, Jr., were ready for the drive down town. This was enjoyed, and then it was time again for the east side of the lawn, where ice melons were cut, a cooling punch drunk, and a general good time enjoyed. The guests were Mrs. and Mrs. Allan Sanford with their visitor from Dallas, the Misses Frances Hays, Frances van Boddie, Stella Lacy, Mary Louise Harrison of San Marcos and Anne Richer, with Messrs. Bowden Hays, Bart Moore, Jr., Hugh White, Joe Willis, C. B. McCallum and Gardner Gillespie.

MORNING AUCTION BRIDGE

FOR MRS. HARRY LYLE

Old friends had been welcomed individually, but the first more general greeting was given by Mrs. Harry Lyle who is visiting from New Orleans in the parlors of Mrs. W. J. Lincoln on Friday morning. This was an auction bridge competition to Mrs. Lyle from Mrs. Lincoln and her sister, Mrs. Laidwell Williams. In making their game the hostesses remembered first the former friends of their honoree. In recognition of two neighborhood guests, the Misses Spell of Hillsboro, a table was added for girls and the Misses Lydia Clinton and Marjorie Crawford of Houston invited to take the hands. The special favor presented Mrs. Lyle was a hat pin holder. For high score Mrs. W. W. Pryor took a Royal Doulton pitcher, and for the consolation cut Mrs. W. J. Neale, who was a caller with her guest, Miss Dunlap from Waxahachie, received one of the late summer books. The morning was thus pleasantly whittled away by those already mentioned, and the Meadams of J. S. Hill, J. B. Cooper, Charles Hamilton, Mattie D. Willis, A. W. Koch, James Hays, L. D. Baker, J. J. Powers, Robert Coleman and Leslie Gardner.

ANNOUNCEMENT LUNCHEON

FOR MISS EDNA GULLEDGE

In McGregor on Thursday an announcement of much social import took place. In this Mrs. Gulledge announced a luncheon for twelve, assisted by her second daughter, Miss Ola Gulledge. Very appropriately the white of a bride and the green of a wedding effect was utilized to make a beautiful table. The tall center vase held natural aspen lilies. Above a cupid hovered, and from his fingers strayed tulle ropes to hold his portrait on each plate card and to tie the candle with, when lit, enabled the card to decipher the announcement. This was that, with late autumn, Miss Edna Gulledge becomes the bride of Dudley C. Johnson of San Marcos. The interest in McGregor is because of the social prominence and the personal popularity of Miss Gulledge. The interest here lies in the fact that the Misses Gulledge have attended Baylor university and have many personal friends in this city. The further details of the marriage are awaited with eagerness. From Waco Miss Lillian Halbert was present at this pretty luncheon.

PAVILION DANCE RULES

FOR COLORADO SPRING

Having attended one of the public dances for tourist guests, Mrs. Pearl Walker Yates noted the rules for conducting the programs. The engagement dances are all waltz and two-step. Attention is called to the rules upon the back of the engagement card. Mrs. Yates reports the floor perfect and excellent music. These dances are in Stratton Park pavilion, that beautiful spot given by the miner Stratton, who was the first to make millions out of Cripple Creek, and at once became benefactor to the city where he had been a day laborer. Admission is free to those ladies not restricted in such a way that respectability is insured. The point to be noted is the strict observance of the rule that only the "regular" waltz is permitted and that no so-called fancy dancing shall be attempted. Even the positions, denominated incorrect or improper, will not be countenanced. It is also ruled that no position which does not hold partners proper distance from each other will be allowed. To violate these rules is to cancel privilege of attending the dances.

This looks as though the abortive contentions called present day dances are tabooed from even the public assemblies of this Colorado resort.

THE EDITOR'S POST CARD

BUDGET FOR FRIDAY

Some interesting news arrived from almost the four quarters of the globe. All had familiar signatures, our home tourists, and each had something of interest in general.

The first was a Venetian scene from the Piazzetta just off the Doges Palace and Saint Mark's church. It was sent by Mrs. Mary Manton and only spoke of a restful Sabbath in Venice with worship at the English church.

Miss Sallie Keith sent picture of one of the American battleships now in Galveston harbor. She had marked a room on the South Carolina where she, with others, was dinner guest of the ensign.

Mrs. R. B. Spencer sent card of the Balance Rock at entrance to Garden of the Gods. She writes that, owing to the crowded condition in Denver incident to the great Knights Templar convocation, she will continue in her cottage at Manitou, where she, with her household, has been very comfortably situated. Mrs. Spencer remarks upon the clean-up crusade in Waco, and refers to the sanitary brick corner at the back of every Manitou residence for the burning of garbage. Mrs. Spencer encountered the heat wave when she first reached Colorado, but all is cool and delightful now.

Mrs. Nelson Smith's mornings at the

Natatorium here are standing her in good stead for summer pleasure. She is now with Nelson, Jr., at Culver academy, and reports swimming simply charming. Mrs. Smith has had very pleasant sojourn in Chicago, where she enjoyed her new "Waverly electric." She sends her message upon a card which shows the beautiful lake at the academy grounds.

Mrs. Flora Cameron tells of some of her late experience on cards from Newport and Watch Hill. She and Mrs. Baird have just had a motor day over to Newport, and selected for one card the commanding cottage which is shown to visitors as the "Suffragette." This is because it is the summer home of Mrs. O. H. P. Belmont, the suffragist leader in America. Really it is a marble palace. Another view is the campus of Cornell, where the Meadams, Cameron and Baird were for a night. This has local interest in that Cornell is the alma mater of J. Lee Davis of this city. The view of Watch Hill shows a delightful summer spot, the waters laving the very base of the handsome hotels and cottages. Still another view is the bathing scene.

These cards bearing the personal message from our Wacoans are indeed of interest. They are even more, they are instructive. They give us the scenes and the life of our American and European people during their summer holidays.

WACO WOMEN REMISS

IN TRAINING MAIDS

There is no evading the fact that the help here is crude in the extreme; so crude that often a mistress is ashamed to let her damsel appear visible to the eye of her guest. Due allowances are made for blunders of these "crudities." Yet Waco matrons are very derelict in their training of these young maids. We grant they are here to do a mistress's work, and that one is gone glimmering before the first elements of the training have taken effect. But does not the next mistress get the benefit of that germ, and can she not inculcate another? Make the best of the situation.

In the bed room and in the kitchen the rule, perhaps is best, no matter how done, if good results are the outcome. This means if a maid has been taught one way to wash dishes, why not let her continue, provided she is neat and has at the end a clean, properly washed dish? The same with making a bed and sweeping a floor.

But when it comes to appearance before the guest in the home, the manner is as much as the conclusion. For example, if the maid is to open the door she must do so silently, promptly, and respectfully. She must know what to say, how to receive the card if a formal visit, how to deliver and return a message, if a business call. Does the woman of the home teach this? Many times no. Many friendships are broken by a careless maid, not a careless mistress either, so much as a careless mistress who has not instructed the maid. Take for instance a caller who leaves her card. The careful mistress has foreseen and told the maid where every card, note and letter shall be laid. A careless mistress has said nothing, and the GAL TWO-SOCIETY maid perhaps tucks the card or note in the flour barrel, under the bed can, and that is the end of it. The card is not returned, and the note is not answered. The friend feels the negligence, and perhaps resents it. She is too proud to refer to it, and a rupture follows. The instances are countless where the forethought of the mistress is necessary.

And the servant at the telephone, this is the first blight upon intercourse between the household and the outside world. Why will women permit their maids to answer the telephone any way? It invariably ends by the mistress being called to the telephone. Why does she not go at first and relieve the maid from interruption? It is exasperating to the one who calls. First of all, if it is the street's call and the mistress thinks it is more to the correct conduct of her menage for the maid to answer the telephone, she is sadly mistaken. Every woman should order

her home supplies. She should be exact in the order, and exacting in having it properly filled. The average maid does not know pure food, and good food, and she accepts anything delivered. Again, not one in the hundred maids knows the names of those accustomed to call the home. She can not understand; she makes egregious blunders; she creates confusion by mistaken identity. She has no business at the telephone. The mistress should have her instrument conveniently placed, where she can attend to the calls promptly and intelligently.

Women, instruct your maids.

Society Notes.

The Misses Gorman, Janet, Margaret and Nora, are having ideal summer life. With school friends they are enjoying co-operative cottage life on Lake Huron shore. Later the Misses Janet and Margaret Gorman go in for the sights of New York City and the water passage home. Miss Nora Gorman re-enters the convent at Lockport for another school year.

It will soon be in order to tell where the Waco girls are to attend school. Plans always become definite with August.

The W. M. Foster household is leaving with Monday for Corpus Christi. Owing to the illness of the little granddaughter Mrs. S. E. Stratton has postponed her departure for Horna Springs, Tennessee.

Reports from Ingleside make Mrs. Buford McWhirter the champion angler of the coast. Mrs. McWhirter landed a twelve-pound red fish. This was sent home and enjoyed by the family.

If we err not, the Edward Morris, just deceased in Chicago, is the man who is descended from the Harvard family of Stratford-on-Avon.

The original Harvard mother was a Miss Morris, and lived in that quaint building known as the Harvard House. It is this which the Morris of Chicago financed until Stratford now has a home for Americans.

The renovation was made by no less a woman of the hour than Marie Corelli. It sounds good any way to read the weather forecast every morning and find there "rain today." But the rain is playing coquette with Waco.

Miss Charabel Humphreys of Speight street is due at home tonight. Miss Humphreys has resigned her position at the State university to remain permanently at home. Her friends are more than pleased to hear this.

Mother, when your child meets with some terrible accident it will be too late to keep him away from the wheel of your car. On Friday there was seen a car going at full speed with two little boys in the front seat. They had released the wheel, were sitting back, enjoying the run of the car, with no hand to drive it.

Just suppose a runaway horse or something else which demanded immediate action had come. It is too terrible to conjecture. And yet the mothers are not careful.

Miss Dixie Wood has joined the Wilby Gooch household for her sojourn in Chicago.

The S. M. Seat cottage is one of the first opened from summer absence. Mrs. Seat has returned from Tennessee and has for her guest her sister, Mrs. Owen, of Tennessee.

The women had best look to their interests if they intend wearing bird plumage. There is a slighty turn of up at Washington over the tariff which shall suppress this cruelty. In case public sentiment wins over the efforts of the milliners to continue the sale of aigrettes.

Talk about fossils and prehistoric bones, here is a worse—a woman writing on household hints to tell us that tobacco will drive away moths. We have known this ever since there was tobacco, and most ever since there were moths.

For the woman who has the taste for the dainty, along with a pocket-book which must be measured, the idea is given that a bed piece may be freshened and made to harmonize with room by covering an old blanket with a fresh cretonne cover.

Have you decided, if God has given you a voice, to join the choir of your church next season? You should do this by all means.

Have you instructed your coachman to let down your horse's check rein whenever your vehicle comes to a standstill? Some of you have, but other some are too busy thinking about self to have a thought for the uncomfortable animal who gives you convenience and pleasure.

Is not this an excellent time to go about the house and note the things which need attention? In the winter we will be too busy. Some occupation will drive away the dull care of these long, tiresome days.

If the fashion hint foretells aright, we are to affect the square in our forthcoming gowns.

Mrs. Bass suggests, and very timely, too, that we anticipate the parade for Woman's Day, by making now all sorts of flowers and other decorative devices which we expect to use. It is Mrs. Bass' idea that the women work up a grand floral carnival for their street parade. Now is the accepted time.

It is intimated that we are to use handkerchiefs to match color tone of gown. We do not believe this will ever be popular. It seems impossible to get the fast color, so the tinted handkerchief looks dowdy after its first passage through the laundry, while the pure white is always fresh and attractive.

It is known that some desirable matter has come into our city for club members. Why not the clubs secure these before the new year opens?

There are some things for children to let alone. Among these are the animals and the flowers in the parks.

The bride who marries on Tuesday is threatened with loss of her husband's love; so says old superstition.

Did you know it was the proper thing with a wine dinner to pour always the first few drops into the glass of the host? This is to insure that no specks from the cork find way to the glass of a guest. Such little niceties are the stamp of the refined hostess.

Society Personals.

Miss Naomi Lockhart of Fort Worth is the guest of Miss Grace Chappell, McKenzie street.

Mrs. Harry Baine of Washington Heights is with a house party of friends in Bryan for a week.

Mrs. B. L. Gayle of Terrace Row is in Chicago, gone for the National Osteopathic convention.

Miss Georgia Streeter and her guest, Miss Lockridge of Austin, are recent visitors to Mrs. Nixon at Bruceville.

Among today's departures will be that of Mrs. J. W. Bass of West Austin. She goes to spend a week with her sister, Mrs. Smith, in Chicago.

Miss Chase Lang returns home to Dallas today. She has been the guest of Mrs. James Loughbridge on Terrace Row for a few days.

Mrs. E. M. Dotson of Eighth and Speight is at home from Beaumont and the coast.

Miss Louise Dotson has returned from Lompas.

Miss Miriam Dotson of Eighth and Speight is the guest of her sister, Mrs. Bart Moore, in Beaumont.

Mrs. Hal Moody of Streeter Place is due from Marshall today.

Mrs. J. W. Sanderson of Franklin street has returned from a three weeks outing in Galveston.

Mrs. J. W. Gooch of South Eighth is due from her visit to Mr. and Mrs. Aubrey Gooch, in Austin.

The Misses Mildred Halbert and Marie Anderson are among the week's absentees. They went for a visit to

Miss Willie Lee Miles at Bruceville.

Mr. and Mrs. Cal Shelton, Tenth and Columbus, are upon the eve of departure for Colorado.

Miss Marjorie Crawford, now of Houston, is greeting friends as the guest of Miss Lydia Clinton, on Columbus street.

Among present visitors is Miss Estelle Dunlap from Waxahachie, who is the guest of Mrs. William Neale on Austin avenue.

Miss Lillian Halbert returned home from McGregor on Friday.

PASTEURIZED MILK.

Scientists of Dairy Division Make Series of Experiments.

Washington, Aug. 1.—Scientists of the dairy division of the department of agriculture today made public the result of a series of experiments in pasteurization of milk. As the result of the tests it is recommended that when milk intended for the market is pasteurized it should be heated to about 145 degrees Fahrenheit and held at that temperature for thirty

minutes. The scientists found that pasteurization at high temperatures was destructive of many of the healthful and body-building qualities of the fluid.

"When milk is pasteurized at 145 degrees for a half hour," the experts declare, "the chemical changes are so slight that it is unlikely that the protein (muscle building elements) or the phosphates of lime and magnesia are rendered less digestible than they are in raw milk."

Pasteurization at high temperatures was discouraged because it was found that the bacteria surviving the operation were largely of the putrefactive kind. This kind has a tendency to make the milk rot instead of sour.

Woman Drops Dead.

Brownwood, Aug. 1.—Mrs. John M. Baugh, wife of a prominent stockman, dropped dead after returning from a brief automobile ride last night.

GREAT AMERICANS ON EDUCATION.

"Expressions on Education by American Statesmen and Publicists" is a novel and interesting bulletin by the federal department of education, issued, it is announced "as an aid to the campaign in behalf of better education facilities." The book is a collection of notable utterances on education by prominent Americans from the earliest days to the present.

Beginning with Franklin, Washington, Adams and Jefferson, all of whom were firm believers in popular education, the document quotes opinions on education from a long line of distinguished Americans, including John Jay, Madison, Monroe, Albert Gallatin, DeWitt Clinton, Archibald Murphey, "father of the North Carolina common school," Calhoun, Buchanan, Thaddeus Stevens, the champion of public schools in the early days of Pennsylvania; Edward Everett, George Peabody, the philanthropist; Horace Mann and M. E. Lamar, president of the republic of Texas.

Coming to more modern times, the following are represented: William H. Seward, Robert E. Lee, who gave the last years of his life to the cause of education and urged the "thorough education of all classes of the people; Lincoln, who viewed education as "the most important subject which we, as a people can be engaged in;" Charles Sumner, Calvin Wiley, who considered it the lasting honor of his state that "her public schools survived the terrible shock of war;" General Grant, who commended the progress of the public schools in a message to congress; Rutherford B. Hayes, Senator Benjamin Harvey Hill of Georgia, who said that "education is the one subject for which no people ever yet paid too much;" William Henry Ruffner of Virginia; J. L. M. Curry, who considered it "the prime business and duty of each generation to educate the next;" Henry W. Grady, Grover Cleveland, Governor Aycock, who fell dead at Birmingham, Ala., with the word, "education" on his lips; and other leading Americans who have urged the extension of educational opportunities, frequently in the face of strong opposition.

A few conspicuous men now living are given space in the bulletin for their utterances on education. There are significant passages from President Woodrow Wilson and former Presidents Roosevelt and Taft; from Charles W. Eliot of Harvard; who has been one of the leaders in the educational regeneration in the South; Charles W. Dabney, president of the University of Cincinnati; Senator Hoke Smith of Georgia; James B. Frazier of Tennessee; Dean Liberty H. Bailey of Cornell, and President Edwin A. Alderman of the University of Virginia.

"STRICTLY A MORAL QUESTION."

Mr. William R. Wilcox, chairman of the welfare department of the National Civic Federation, reports for the department that "there is practically no connection between the so-called white slave evil and the working conditions in the New York department stores."

The persistent attempt to cast reflections upon the character of working women through the contention that immorality is a prevalent and a necessary part of their changed economic condition, he finds "an aspersion upon womanhood most obnoxious to the army of business and professional women who guard their reputations even more carefully than the rich society women who have every protection thrown about them."

"History shows instances where women have killed themselves to save their chastity," says the report. "Dur-

ing the Boxer rebellion in 1900, women killed themselves to prevent violation on the part of the French or the Russian soldiers. In the town of Tungchow alone nineteen Chinese women threw themselves into a well when the Russian troops were taking the village, rather than to fall into their hands."

One explanation of the persistent efforts to make "white slavery" an economic rather than a moral question, is in the fact that socialist writers have filled the magazines and newspapers with their philosophy, which contemplates the abolition of the wage system itself.

"In other words," says the report, "many of the statistics and much of the literature on the question today are furnished by those who openly demand that the industrial system must be overthrown and all poverty abolished before there may be found any cure for the social evil."

The committee of the federation discovered far better conditions existing in the twenty-two stores investigated than it had anticipated. It found that the highest average rate paid saleswomen in any given store is \$14.49 a week, the lowest being \$7.11. The report states that there are individual cases where a saleswoman is receiving \$60 a week as a maximum, but in the same establishment one woman is receiving only \$3.50.

WACO ASKS FOR THIS SERVICE.

There is no work for the Young Men's Business League and the Chamber of Commerce that is more important in the present situation than to obtain for this community transportation facilities that will provide convenient travel between Belmead and the city proper. There are several hundred families resident at Belmead and many employees of the Katy railroad whose only market for their daily purchases is in the city limits. Many of these people desire to live either on the east or the west side of the river in the limits of the city and go to and from their work by convenient conveyance. The Southern Traction company can provide this by an inexpensive extension of its east side line. It should not be difficult to show the company that such an extension would produce revenue and serve its interests equally with the interests of the whole city. It is not, of course, surprising that the traction company has not projected this construction when one considers the number of years the east side needed service that it could not get, and when one considers the several phases of operation by this concern that have evoked the dissatisfaction of the city government and the citizens in the year past.

Nevertheless, it is to be hoped that the city's business organizations, its government and citizens generally will be able to persuade President Strickland that Waco needs this extension and needs it now—and that the company will profit in many ways by manifesting a willingness to provide proper service. Belmead is a substantial factor in the trade and community interests of Waco. It should be taken care of at once in the matter of street car service.

Mr. E. L. Woodley, a banker of Shamrock, this State, has returned from South America and gives an interview to the effect that free beef will not injure American producers and affect the price, as there is no existing competition in South America at present. Who wants to know whether it will injure the producers? Will it feed the people, eventually?

M. Jules Vedrines of Limoux is campaigning for election to the chamber of deputies and goes about in a monoplane soliciting the suffrages of the French equivalent for the pee-pul. In Texas we have a few gubernatorial candidates who are also very much in the air as to their campaigns.

"As a republic, China may certainly be classed as fragile," the New York Mail puts it, thus supplying the only new phrasing in 347 paragraphs that have come to our notice having to do with the chink revolution and the fungused funnyisms on the "breaking up of China."

Rev. Bob Jones, of Atlanta, preaching in New York City inveighed that "if there isn't a hell there ought to be." The surprising feature is that Bob should have any doubt on that subject after a casual inspection of his environment.

Has it occurred to anyone to inquire whether the Washington correspondents prefer Mr. Bryan's volunteered lectures on their work to Mr. Wilson's kitchen cabinet meetings with them on his?

Mormon elders have appeared in the vicinity of Atlantic City and have attempted to preach their creed, arousing the indignation of local matrons.

Any sort of religion preached in that neighborhood, however, can do no harm since it can make no impression.

Between reports that there is a revival in Spanish cities of the hatred of Americans engendered by the war of 1898, and the new mess of ill feeling stirred up in Mexico by Huerta's agents it will be well for the "bold Yankee tourist" to restrict the sphere of his boldness.

It is reported that the Paterson police piled up an arrest record during the recent silk mills strike. The trouble with Paterson's police is that they do not do more arresting between strikes. That might be the way to fewer strikes in the city of I. W. W. jollification.

If Mr. Bryan has any more "close friends" for whom he desires federal jobs in Texas, will he kindly trot 'em out now so that we can see if there will be any places left for those who worked the hardest to encompass the nomination of Mr. Wilson?

"No Washee; Much Fightee." No, Ole; that is not the title of a Goldberg cartoon. It is a front page headline in the Dallas News and the story is that Shanghai's laundries have fled to Ningpo, leaving the city clean-clothes-less.

Captain Ruser of the Imperator opines for publication that "the ship is already too small" and "we want larger vessels." It appears the American spirit now permeates every nation when it comes to speed and show.

Let it be understood at once that the new chief of the weather bureau is Marvin—Prof. Charles F. Marvin, not Marvel. The marvel will be only if an occasional prediction of his makes good.

"Culberson Will Not Resign," blackheads the Houston Post. Will someone be kind enough to send us the name of the lily or sent who seriously believed he would?

Danger of a revolution in Peru has not yet affected quotations on Lima beans. As the Austin Statesman will say next Tuesday, let the poor Peruvian bark.

By the way, is there anything in the Hay-Pauncefote treaty that would interfere with the plans of this government to beautify the canal?

And if the factions of congress can unite on nothing else, there is the common characterization of the N. A. M.'s sensation springer.

Our idea of the Hon. Bill Sulzer's idea of nothing to worry about is Tammany's efforts to have him impeached.

The world is now treated to the Mexican spectacle of a traitorous government trying its enemies for "sedition."

Midland county is now dry on the liquor question—also.

All's quiet and moist in Williamson.

Texas Viewpoints

Sounds Silly.

"Pure love casts out fear and it casts out beer," topcolumns Sulphur Springs News. It isn't often we call for a blue print on any paragraph, even an obvious space filler, but we must cry, "Help!" on the foregoing. It is the limit, even for a newspaper in an arid region.

Amour Propre?

Says the Texarkanian: "Every great city has at least one great newspaper." Mischievously we are waiting for Four States Press to accept the responsibility.

Press Opposition Centered.

It was a curious situation, after all, and this from Wellington Leader sums it up: "The county newspapers generally opposed amendment 18, but their opposition was not so strong and united on the other two amendments. It is significant that amendment 18 was defeated much worse than the others." Perhaps it may be accounted for by the fact that Resolution 18 was a new proposition thoroughly and glaringly a dangerous proposition. The proposed abolition of the fee system, and even the proposed "district judges amendment" had been heard of before to some extent. The country press was kept busy with contributed arguments for and against number 18 and apparently gave little thought to the others—which should have prevailed. We urged the adoption of the salary amendment and sincerely regretted that it went down because it was in weak company. Austin Statesman has a paragraph on this very head that in a measure embodies our view of the defeat of the

two other propositions: "Since the bond amendment election is over, evils of the fee system are being discussed again. During the campaign too many were silent because they were afraid of Senate joint resolution No. 18 and preferred that all amendments be sacrificed rather than to give each amendment the consideration it merited. The Statesman regrets that the fee amendment was sacrificed and seriously hopes that those who are now seeing the evils of the system will keep up their campaign against it for the next two years, as we intend to do." Surely the greater part of Texas press will advocate resubmission of this strong amendment.

The U. S. Is Short on Meat.

"It is not necessary"—and it really is not—"to seek any elaborate and roundabout explanation for the high price of meat," pithily puts Palo Pinto Star, "when these facts are before the country: In 1907 there were 87,178,958 people in the United States and 72,534,000 cattle. In 1913 there are 96,765,573 people and 56,527,000 cattle. A comparison of the figures ought to be instructive to the American farmer." Instructive, interesting, unsatisfactory—and final. Who tells now of the need of retaining duty on imported livestock and meat except those who raise cattle, and what real reason can they advance? We think it was in June, the day after he who is probably the best known cattleman in Southwest Texas issued a statement condemning the free-listing of cattle and meat as a fatal blow at the prosperity of this region, but admitting the above figures and that there was an overwhelmingly serious meat shortage in this country—we think it was the very next day that a big ship put into San Francisco with a big cargo of big beef, from antipodal Australia, which was snatched up in a big hurry in the local market and sold for big prices in less than the usual market hours. "Keep the duty on meat!" It is to weep.

"Clever Even in Grief."

This is ancient, and dishonorable in purport, but every time we see it we reprint it and our latest seeing of it is in a Texas exchange that credits Frankston Citizen with it: "What some people know about motoring would fill a book; what they don't know fills cemeteries." We had a loved dog once that used to frisk about the street and a neighbor permitted his knee-pants son to drive a cheap car. He was a pimply-faced boy with red hair and watery blue eyes and he hated him cordially. There is no cemetery for dogs; but there is also no reason why the above near-epigram should not be the truth as to the fate of pinhead drivers as well as helpless pedestrians.

That Depends.

"Be it the young artist at his easel, the young preacher in his pulpit, the workman at his bench, the boy at his mathematical problems, or your little girl at the piano, give what praise you can," expands Winnsboro Free Press nobly. In mercy's name, man, urge some discrimination in handing out praise to the little girl at the piano. Did you ever live next-door to one who had progressed as far as "Blue Danube"?

James A. Rogers Is Deputy Marshall

James A. Rogers was sworn in yesterday morning as deputy United States marshal for the Western district of Texas. The oath was administered by W. D. Rondthaler, clerk of the federal court.

Rogers is from Uvalde. He will enter upon his duties at once as assistant to United States Marshal John Rogers of San Antonio. There is no relationship between the marshal and his assistant.

Deaths and Burials.

Mrs. Bertha Kelly, 55, the remains of Mrs. Bertha Kelly, who died yesterday morning at 3:25 o'clock at her home, 1526 North Twelfth street, will be shipped to Austin this morning at 10:50 o'clock, where burial will take place this afternoon at 2 o'clock.

Mrs. Kelly had been a resident of Waco for the past three years. She was an old resident of Austin. Surviving are her husband, J. W. Kelly; two sons, C. L. Kelly, Frank J. Kelly, and one daughter, Mrs. M. T. Conroy.

Local News Notes.

City Commissioner J. A. Littlefield is in Galveston on business. Mrs. Littlefield and two daughters will join him there today and they will remain until Tuesday.

When a delivery wagon of the Geyser Ice Co. turned the corner of Moore and South Fourth street sharply yesterday morning an incoming Oakwood and Belt car struck the wagon. One of the horses was badly bruised and the doubletree of the vehicle broken. This is the third accident at this corner recently. The narrow street is said to be responsible; when a vehicle enters the corner its wheels are thrown onto the cat tracks.

Arouses the Liver and Purifies the Blood.

The Old Standard general strengthening tonic, GROVES' TASTELESS CHILL TONIC, arouses the liver to action, drives malaria out of the blood, and builds up the system. For adults and children. 50c. (Advertisement.)

A BETTER STORE FOR MEN.

QUERY IS NOT PERTINENT NOW

LOCHRIDGE WANTS TO KNOW IF LEADERS APPROVE MILNER.

PEOPLE ARE TO HAVE THE SAY

Demand Now Is for a Constructive, Business Administration of the Affairs of Texas.

By James Hays Quarles.

The Austin Statesman, the guiding spirit of which is Lloyd P. Lochridge, puts this query:

James Hays Quarles says that R. T. Milner is in the governorship contest with both feet and his hair braided. Jim ought to know. But will he please tell us how Colonel Milner stands with the pro and anti leaders? We are being asked the question very often and, frankly, we do not know.

I hold no brief for Colonel Milner. I am not in such relationship that I can answer for him as to the principles which he will advocate as a candidate for governor. In fact Mr. Lochridge appears to be better informed about the retiring president of the A. and M. college, as he says over his own signature the following:

R. T. Milner is perhaps grooming himself harder for candidacy just at this time than any other one man in Texas. The defeat of Senate Joint Resolution No. 18, his fight against it, following his resignation as president of the Agricultural and Mechanical college, and his controversies with Governor Colquitt, all constitute his early campaign ammunition. His letter in Sunday's paper attacking the governor is a good indication of the course he is pursuing. Colonel Milner is very close to T. M. Campbell and would probably be acceptable to him.

But why should the standing of Colonel Milner with the pro and anti leaders enter into this question of his candidacy? Are the pro and anti leaders of the state to parcel out the office of Texas? Are they to say who is to run for governor and who is not? I think the people and not the leaders will decide the question.

And Why Pro or Anti?

I don't see why the pro and anti question should enter into the matter. Texas has provided in the constitution for the people in their several communities to decide whether liquor is to be sold or not under the statute of the state the liquor business is conducted upon better lines than ever before; regulation has been put in force; a man's license is in jeopardy whenever he violates a law; he must close his doors at 9:30 p. m.; he must not ship into a dry territory; he can do business only in those localities where the people by majority vote decide that the business is acceptable to them. The state-wide question does not now enter into the campaign; if the legislature decides at any time to submit an amendment to the constitution providing for state-wide prohibition, it matters not who is governor; he cannot stop it, because it does not lie with the governor of Texas to refuse to call an election on a constitutional amendment when the legislature directs it; if the people vote for the amendment in sufficient numbers to carry it, it matters not who is governor; its force and effect could not be interfered with, and if the people vote in sufficient numbers against it, the governor, it matters not who he is, could not put state-wide prohibition into force and effect.

Therefore why should the pro and anti question be put forward so prominently? It is a question that is not a part of the democratic platform, and in submitting his name to the democracy of the state for nomination as a candidate need not prove his claim to membership in the democratic party by stating his position on democratic principles.

Must Be Constructive. In my opinion the next candidate for governor who is successful with the people will be the man who believes in constructive government; a man who will not quibble at technicalities; who will not cry for peace

MARLIN BUREAU Waco Morning News

Over Postoffice —:— Telephone 557

Marlin, Aug. 1.—Miss May Jones is home again after several weeks' visit in Waco and Eddy.

R. L. Vaughan and family of Mart were visitors to Marlin Thursday afternoon.

Mrs. W. R. Dragon and Mrs. Maxwell of Shreveport, La., are visiting Marlin.

Miss Wright, who was the guest of Mrs. Dr. J. W. Cook, has returned to her home in Waco.

Alderman R. L. Stallworth has returned from a vacation spent at Galveston and other places on the coast.

when there is no war; who will treat with the legislatures as if they are safe and sane citizens of the state anxious to build Texas; who will want to see railroads prosper and extend their facilities for transportation; who will encourage protection of property by giving the insurance companies the right to do business on a business basis; who will require the various departments of the state to be conducted on a business basis; who will see to it that business principles as well as humane ideals obtain in the management of the penitentiary system; who will not be continually putting his heel on the neck of every other man elected by the people to office—one who will encourage development in every way.

Whether Colonel Milner will fill that bill or whether it will be some one else, the announcements which will be made will have to prove. As I said, I hold no brief for Milner or any other candidate. I only draw a picture of the character of man whom I think the people will elect to the executive office, and I hear such a man being called for by the people every day. They are demanding that some man bring all the pressure to bear to put Clarence Ousley in the position. Ousley has just returned from Europe; he even there on suggestion of one governor; the board of directors of the A. and M. college met somewhere in the vicinity of the office of the Fort Worth Record, of which Mr. Ousley was the editor, and declared that Ousley should have \$1200 of the college money to make the tour of Europe at time when the salaries of the employees of the college had not been paid. It has been repeated in several instances that when the board of directors of the college met in February last that an effort was made to elect Ousley president, but that he failed by two votes.

Since that time there have been additions to the board of directors under the new law that provides for more members of the board. Among the latest appointments to membership by the governor is Colonel J. Sheb Williams of Lamar county. Colonel Williams has been touring Europe with Mr. Ousley, and of course will come to the first board meeting thoroughly impressed with Mr. Ousley's personality and his capability for the position of president of the A. and M. college. That Colonel Williams is a good man for the position of director of the A. and M. college is shown by the following clipping from the Fort Worth Record, which paper was for so many years conducted by Mr. Ousley and on which the editorial work is now done by Walton Peters, former chairman of the board of directors of the college, and still a member of the board.

Governor Colquitt made an ideal appointment when he named Colonel J. Sheb Williams as a member of the board of managers of the Agricultural and Mechanical college at Bryan. Colonel Williams is a real farmer. He is not a farmer who farms the farmers; Agriculture is his hobby, and he is the owner of one of the finest farms under the Texas sky. He isn't a book farmer nor a fancy farmer. He is an intelligent farmer who knows the business from the ground up. He has spent the summer in foreign countries studying marketing and credits as well as cotton culture in Egypt. Governor Colquitt made no mistake when he named Farmer Williams as one of the board of directors of a farmer's college.

U. S. Treasurer's Report.

Washington, Aug. 1.—The condition of the United States treasury at the beginning of business today was:

Net balance in general fund, \$132,262,619.

Total receipts yesterday, \$2,952,078.

Total payments yesterday, \$477,120.

The deficit this fiscal year is \$2,683,682, against a deficit of \$734,839 last year.

Active debt of Panama canal and public debt transactions.

DESERTION IS CHARGED

**TWO MEN SERVED WITH COM-
PLAINTS ALLEGING THEY
ABANDONED WIVES.**

Both Furnished Bonds—Woman Asks
Weekly Contribution of
Twenty Dollars.

Two complaints charging wife desertion were filed in the county court yesterday. Both defendants were arrested and furnished bond. Ed L. Thorpe was charged with deserting his wife, Ada Mae Thorpe, and their two children, Jack and Edna, both under 16 years of age. Mrs. Thorpe also filed ex parte petition asking that the accused man be compelled to pay into court in-
stantly \$20 and be compelled to contribute a like amount each week for the maintenance of herself and children. The case was set for hearing August 2.
E. G. Seales was charged with deserting Mrs. Lula Seales and their children. He furnished bail.

PASS LAW VIOLATION CHARGED

Woman is Said to Have Presented
Transportation Permit
at Depot.

Charged with violating the anti-pass law, May Davis was arrested by the county officials yesterday and is held under bond. The complaint against the woman was made as the result of information secured by a special agent of a local railroad. It alleges the woman presented a pass bearing the name of Mrs. E. H. Rugan to the baggage-master at a local station for the purpose of checking baggage to St. Louis.
Another arrest in connection with the case is expected, complaint having been made.

REMOVE LICENSE.

Minor Employment Charge Dismissed
by Court.

J. L. Simms was permitted to remove his liquor license from the corner of Mary and Eighth streets to 115 South Second street after a hearing on the matter in county court yesterday. Prior to the hearing of the ex parte, the case in county court charging Simms with employing and permitting a minor to remain on his premises was called for trial and the charge dismissed.

Liquor Suit Instituted.

Suit to forfeit the liquor license granted to E. A. Muhl to do business four and one-half miles out of the city on the Marlin road, was instituted in the county court yesterday by the county attorney's department. The petition alleges Muhl is at present in the way of interfering in the place where the license is being used.

NINETEENTH DISTRICT COURT.

Tom L. McCullough, Judge.
R. V. McClain, Clerk.

Suit of Est. Post vs. J. W. Higgins, for alleged failure to carry out contract still on trial.

COUNTY COURT.

George N. Denton, Judge.
J. W. Baker, Clerk.

VERY DRY IN KANSAS

JULY SECOND DRIEST MONTH IN THIRTY YEARS IN THAT STATE.

Topeka, Kan., Aug. 1.—The month of July, 1913, was the second driest month since the local weather bureau was established thirty years ago. The total rainfall was 1.55 inches. In 1877 the total rainfall for July was 1.06 inches.

Kansas streams that have never been known to go dry are dry now. More than thirty Kansas towns have been compelled to shut off all water for lawns and a dozen towns have scarcely enough for domestic supplies. Last night sixteen tank cars filled with water were hauled from Topeka to Horton and other tank trains are in readiness to haul water from Wichita to Weddington.

The Kansas river is the lowest ever known, standing at 3.3 feet. Central Kansas is hauling water for stock.

Pennsylvania produced more than 32 per cent of the Portland cement in the United States last year and Indiana about 12 per cent.

OFFICERS CONFIDENT

THINK SLAYER OF FLORENCE BROWN WILL BE FOUND SOON.

Uncle of Girl Makes Statement—Says Knows Motive of Crime, Which Evidence Corroborates.

Dallas, Aug. 1.—That the murderer of Miss Florence Brown will be arrested within the next few hours is the confident and emphatic statement of not only police officers, but also of relatives of the dead girl.

J. D. Robinson, uncle of the slain stenographer, gave out a guarded statement to newspaper men at the Robinson & Styron offices shortly before noon today. At his elbow Chief of Police John Ryan stood and censored the statement, which was to the effect that the police were hot on the trail, and that the man who killed Miss Brown would without doubt be brought to justice within the next few hours.

Mr. Robinson's statement was made after the entire Dallas county grand jury had gone through the Robinson & Styron offices, carefully looked over the premises and checked up the contents of the office safe. They reported upon their findings in such a manner that any rumor of robbery or attempted robbery was dispelled.

Mr. Robinson's statement yesterday owing to the fact that I was un-
dermined by my tiresome journey from Colorado and the terrible mental strain which I have undergone since hearing of this terrible crime," Mr. Robinson said.

"The only word that I received was a brief telegram from Mr. Styron, saying that Florence had been murdered, and that I should come at once. I was not able to obtain a newspaper before reaching Dallas, and knew no details of the tragedy until I reached home. I have been instructed both by police and sheriff not to say anything about the case, so my statement

cannot be as full as possible. "I feel certain that I know the motive for the crime. I had my own theory as to who killed Florence before I arrived in Dallas. I find that all the evidence gathered by the police coincides with my views in the matter." "We have established several good clues and I feel absolutely certain that an arrest will be made within a very short time. Florence was surrounded by a congenial office force who would have tried to protect her. My mind is made up regarding the matter and the police hold my views and are working hard on the case. I am confident that the murderer will be caught in a short time."

Scouts Robbery Theory. "The grand jury investigation has proved that there is nothing to the robbery theory. In the vault the grand jurors found only \$14.15 in money, several checks and a bank book showing that Miss Brown had deposited \$454 with the American Exchange National Bank Saturday afternoon. There was nothing of any special value in the vault and no evidence to show that it had been tampered with."

Mayor W. M. Holland was at the city hall today after returning from Denton county. He immediately held a conference with Chief of Police John Ryan.

"From what the police tell me they have good prospects of making an arrest," Mayor Holland said. "After my talk with Chief Ryan I predict that the murderer of Florence Brown will be safe behind steel bars before Sunday. With trained officers, police, sheriffs and county detectives all working in harmony, I feel certain that the encouraging new clues developed will be run down and an arrest made. I am going to talk over the matter of securing the services of Detective William J. Burns with Commissioner Blaylock. If we need outside help I am in favor of securing it."

Captain McDonald Active. Capt. Bill McDonald, United States marshal, accompanied by a Dallas business man, went to Brownwood, Texas, and later to Sherman, in the interest of the case. He was reported in Sherman late today.

OPPOSE WILSON'S PLAN. Do Not Want American Protectorate Over Nicaragua.

Washington, Aug. 1.—Opposition in the senate to the plan to President Wilson and Secretary Bryan for an American protectorate over Nicaragua has received strong support from representatives of the liberal party in that republic. When the senate committee on foreign relations takes up the new treaty again tomorrow it will be with the knowledge that a strong element in Nicaragua is adverse to yielding any vestige of sovereignty to the United States. Protests against the treaty are being made in Washington by General Francisco Alvarado, a representative of the Nicaragua liberals. He contends that many of his people do not favor the idea of the protectorate, although they are willing to make a treaty to give the United States the proposed canal, canal building rights over the Nicaraguan route.

A preliminary draft of the treaty is now before the senate committee and will be considered at a meeting tomorrow. Senators Borah, Clarke of Arkansas, Williams and others now will oppose the convention, base their objections upon the claim that a protectorate over any Central American country would be a radical departure from the settled foreign policy of the United States.

SOUTH AMERICAN SHIPMENTS. Five Principal Countries Send More to United States Than Receive.

Washington, Aug. 1.—While trade between the United States and five principal South American countries, Argentina, Brazil, Chile, Peru and Uruguay, still is in favor of the southern republics, this country made a considerable gain during the past fiscal year and reduced by \$10,000,000 the wide margin of difference between its imports from and exports to those countries. Imports remained stationary during the year, being valued at \$187,000,000. The United States shipped to the five nations \$126,000,000 of

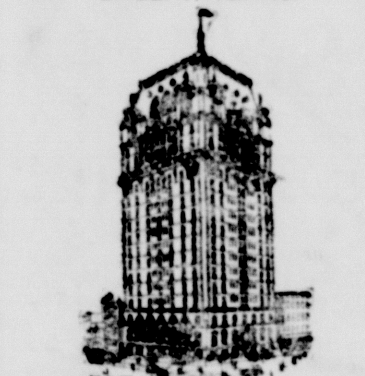

merchandise this year as against \$116,000,000 in 1912. There were increases in shipments to all the countries named except Argentina, where there was a slight decrease.

In the past year Argentina bought \$12,000,000 worth of goods here, sold \$27,000,000; Brazil \$15,000,000, bought \$120,000,000 sold; Chile \$16,000,000 bought, \$25,000,000 sold; Peru \$7,000,000 bought, \$10,000,000 sold; and Uruguay \$2,000,000 bought and \$7,000,000 sold.

More than 55,000,000 tons of iron ore were mined in the United States last year from the previous year's figures. Year, an increase of more than 25 per cent.

ROADS OF COUNTY GAIN \$150,000 IN INTANGIBLE VALUES OVER 1912

Cotton Belt Shows Greatest Increase of Steam Lines. Katy Takes Second Place—Rolling Stock Report of Three Roads Received.

Intangible values of railroads in McLennan county for the year 1913 are more than \$150,000 in excess of the valuations of the preceding year, according to the figures of the tax assessor's office.

Tax Assessor John Reed is just in receipt of the intangible values of the seven railroads which run into McLennan county. He also has received from the tax board at Austin the amount of rolling stock of three of the railroads, which will be apporportioned to this county. The amount of rolling stock of the other roads has not been sent him.

The intangible value for railroads in the county this year is \$2,571,940, as compared with \$2,415,385 last year, an increase of approximately \$156,000 this year over last.

Cotton Belt Leads.

The St. Louis & Southwestern railroad shows the greatest increase in intangible values and the Katy comes next. Last year intangible value of the St. Louis & Southwestern in the county was \$162,720, while the report for this year, just received by the tax assessor, gives the valuation at \$284,760, an increase of more than \$120,000. The increase in the Katy valuation was from \$716,800 last year to \$757,760 this year, an increase of about \$50,000. The other roads show practically the same valuations as last year. The Gulf, Colorado & Santa Fe this year is \$426,360, against \$439,205 last year, a slight loss; the Houston & Texas Central shows exactly the same as last year, \$424,800; the San Antonio & Arkansas Pass shows \$134,400 this year against \$128,000 last year, and the Texas Central road shows the same as last year, \$51,562.

Rolling Stock Apportionment.

Of the three roads in the county on which Tax Assessor Reed has received a report of the rolling stock apportioned to this county, the St. Louis & Southwestern also leads. The apportionments are, St. Louis & Southwestern, \$98,837; Gulf, Colorado & Santa Fe, \$48,601, and Texas Central, \$11,015.

Report of the amount of rolling stock of other roads traversing the county, that will be apportioned to this county, has not yet been received by the assessor.

Returns from Dallas.

Elbert Blair, general freight and passenger agent for the Texas Central railroad, returned last night from Dallas, where he has spent the week on company business.

Sorg Here.

Charles Sorg, traveling freight and passenger agent for the Burlington route, was here yesterday afternoon.

Matthews Returns Today.

Supt. A. A. Matthews of the Katy will return from Fort Worth today, where he went Thursday with Mrs. Matthews, who is now en route to Denver.

BREAKING CHILD LABOR LAWS

Lumber Mills in Eastern Part of the State Work Children Who Are Under Age.

Austin, Aug. 1.—Children ranging in ages from 10 to 15 years working for wages not exceeding 75 cents per day in large lumber mills in the eastern section of the state were found by Factory Inspector Garrett on a recent trip through that section. In some places the children were found working in dangerous proximity to unguarded saws, performing the most dangerous occupations.

Mr. Garrett immediately saw that the children were discharged, and upon extracting promises from the managers that no more child labor would be used he held prosecutions in abeyance.

NOTICE BY PUBLICATION OF FINAL ACCOUNT.

The State of Texas.
To the Sheriff or Any Constable of McLennan County—Greeting:
John S. McGinty, executor of the estate of N. J. Chandler, deceased, has filed in the County Court of McLennan county, Texas, his account for final settlement of said estate, which will be acted on at the September term, 1913, of said court.

Therefore, you are hereby commanded, that by publication of this writ for at least twenty days in a newspaper printed in the county of McLennan, you give due notice to all persons interested to appear before said court at the September term thereof, 1913, commencing on the 1st day of September,

1913, and contest the said account if they see proper to do so.

Witness my hand and seal of office, at Waco, this 25th day of July, 1913.
(Seal) J. W. BAKER,
Clerk County Court, McLennan County, Texas.

LOAN SHARK WARNED.

Violates New Jersey Laws and is Fined \$1000.

Trenton, N. J., Aug. 1.—Daniel H. Tolman, money lender in a chain of offices in large cities, was warned by Judge Gnichiel today that he must remain out of the so-called loan shark business for three years under penalty of imprisonment.

In passing sentence on Tolman, who pleaded guilty to violating the New Jersey law, in conducting his business, the court also fined him \$1000.

Tolman is 61 years old and his activities have given him the sobriquet of "king of the loan sharks." He has made a fortune out of his business.

KATY STOPS IMPROVEMENTS.

Pending Litigation Inhibited by Attorney General No Extension.
Dallas, Aug. 1.—Improvement and extension of the Katy railroad lines in Texas will be suspended until litigation instigated by the attorney general, asking \$15,000,000 penalties for alleged violation of anti-trust laws and general statutes is settled, according to a statement last night by President C. E. Schaff of the Missouri, Kansas and Texas railroad, here as a witness in the suit.

"The action of the state has been most discouraging," said Mr. Schaff.

WILL MAKE YOU A LAND OWNER

MONMOUTH HEIGHTS

Today, Saturday. If You Can't Come Today, Come Sunday.

OUR REMARKABLE OFFER:

We are going to give every man and woman an opportunity to secure a lot in MONMOUTH HEIGHTS at rock bottom prices on the easiest terms imaginable. This offer will remain open only a short while but you will have ample time to see the lots and decide whether you are going to keep on paying rent or start a home of your own. Remember we make it very easy to acquire one of these beautiful lots. In fact we practically allow you to make your own terms. You need not hesitate, the time to act is NOW. Don't put yourself in the class of those who a few years later will say, "I had the chance to make big money by investing a few dollars in MONMOUTH HEIGHTS and let it slip by." No better proposition of such money-making possibilities will ever be presented for your consideration. See these lots while they last. We show them day and night on the grounds.

HOW TO REACH MONMOUTH HEIGHTS

Take North Fifth Street car, get off at corner of Ruter and North Nineteenth street, where you will find our salesmen ready to show you the property, or call me over old phone 746 or new 1883 and we will call for you with our auto and take you to see Monmouth Heights.

Beaumont	14	66	.384

Galveston, Aug. 1.—The Navigators were put out of the running early in the first game of the series through the masterly pitching of Harbin, who was beyond hitting with runners on the base. The score ended 6 to 0 in favor of the Pirates. Jost opened for Waco but was taken from the mound after the fourth round. Frierison and Massey carried off the batting honors. Two opportunities were offered the Navigators to pass the danger zone, but the pinch hit was not forthcoming. The score:

Austin 10, Beaumont 8.

Beaumont, Aug. 1.—In a slow and uninteresting game of ten innings between the locals and Austin this afternoon, the visitors carried off the decision by a 10 to 8 score, making two runs in the last inning of play. The visitors played an uphill game and hit Chappelle in the seventh, eighth, ninth and tenth innings, making enough runs to win.

Fort Worth 4, San Antonio 2.
San Antonio, Aug. 1.—Unable to get a single hit outside the infield, although registering six scratches, the Bronchos went down before McCafferty and the Panthers in the opening game of the series 2 to 4. Fort Worth in the eighth got four clean hits with out scoring a run, this being due to the great pegging of Collins from right field. Neither side gave its pitchers very good support, Schwind being the main offender and losing the game for the locals with his bad throwing. The score:

AB	R	H	O	A	E
Seitz, 2b	3	0	1	5	1

Dallas Downs Buffaloes.

Houston, Aug. 1.—Houston perked away at Rader, getting one hit at least to the inning, but the Dallas man was good in the pinches and won 4 to 2. Errors and misplays, mixed with bunched hits, allowed the visitors four runs. Boone fielded brilliantly at short for the visitors.

REAL ESTATE For SALE RENT TRADE REAL ESTATE

For Sale—Real Estate.

If You Wish to Buy, Sell or Exchange Real Estate CONSULT WITH US

NECESSITY

Compels the sale of a beautiful home on Colorado; the present owner must leave Waco and has asked us to make a quick sale, which we cannot help from doing with the price we have on this place.

In checking up we find that one of the bargains of last week seems to be still pending, we do not like to repeat, but this is such a bargain that we feel that we are doing you an injustice not to again bring it before you, so here it is: 5-room house and 5 lots. Let us show you this property; we want to show you what a bargain looks like.

A good investment is the 50x165 feet on Austin street, an extra well built two-story brick, divided into two stories, and now rented, bringing a good revenue. This property is well located and the price is \$75,000, 1-3 cash, balance on long time.

\$10,000 invested on Franklin street, right in the heart of the rapidly developing district, and will bring good revenue to the purchaser.

25 feet on Elm street, will prove of considerable interest to a person looking for an investment. This is interesting. See us about it.

A choice corner in Highland Place, at a price within the reach of the small investor.

An extra well located lot on Morrow street for only \$1000, and a small cash payment.

A snug little home on Gorman street, just one block from car line, for only \$2500. This is a snap.

DO YOU WANT TO OWN A HOME?

If so come to see us; we have more than 20 choice lots on the President Heights that we are going to build modern homes on at prices and on terms that will turn your rent receipts into HOME BUILDING COUPONS.

75x165 feet, including a well built cottage, located close in on N. 15th street. This cannot be beat as an investment. Price \$4500.

A modern 6-room bungalow on Columbus street, lot 50x165 feet, for only \$4000. Call on us and arrange payments.

A good four-room house, hall and bath, located in a good neighborhood on South 8th street. Price \$1800, with 1-4 cash, balance to suit.

50x165 feet on South 5th street; if you are looking for a place in this locality it will pay you to see this at \$3250.

A beautiful home on Fort avenue, corner lot 100x150 feet, fine shade trees, good land and garage, and the most interesting feature of this is the price—\$7000.

Within 2 blocks of Sanger avenue, a fine corner lot and modern 5-room cottage, if you want something that will satisfy the most fastidious, take elevator for 13th floor and ask us to show you this property which we will do with pleasure.

18 acres just off the Interurban and within walking distance of station, surrounded by land selling for \$200 an acre and better. If you are quick to make up your mind, we can let you have this at \$125 per acre.

27-acre poultry ranch, well located and well improved and at a price that will enable the purchaser to pay for it out of the revenue derived from the sale of the products.

200 acres rich black land, well improved land, 155 acres in cultivation, situated 1 1/2 miles from a nice little country town, with good schools and churches. This place has fine well of water and piped over the entire place. Price \$55 per acre. Will consider some city property in exchange.

200 acres heavy black land in western part of county, well improved, at \$110 per acre.

560 acres river bottom and prairie of which 275 acres are in cultivation; 4 sets of improvements, good windmill and tanks, 200 acres hog pasture. This land is situated in an adjoining county, conveniently located to railroad station, and can be purchased at \$15 per acre. Will consider some trade.

If East Texas lands are what you are interested in, see us, for we have a fine list of choice lands and at a price that is really interesting to any one seeking an investment.

One of the largest Grocery Stores in Waco, building and fixtures, \$20,000, stock, at invoice price.

Good revenue bearing property on North Side, excellent location for apartment house. Price reasonable and terms to suit.

1-3 interest in Grocery business on Austin avenue; new, clean stock and doing nice business. For further information see us.

100 feet trackage on Mary street, between 15th and 16th streets. Price \$50 per front foot.

WE FEEL THAT WE HAVE JUST WHAT YOU ARE LOOKING FOR, SO IF NONE OF THE ABOVE APPEAL TO YOU CALL US UP.

WANTED—Two neat appearing young men to work on trains; good pay. Apply the Union News Co., Katy depot.

Help Wanted—Female.

Markets By Telegraph

Cotton.

New York, Aug. 1.—The government's report, making the condition of the growing cotton crop 79.6, against 81.8 last month, 76.5 last year and a ten-year average of 80 per cent, was under general expectations and caused quite a sharp advance in the market during today's trading. Business was not particularly active and there was nothing to indicate that the official statement had materially stimulated demand, but there was considerable covering as well as some support from Wall Street bulls, and the market advanced some 18 to 20 points after the publication of the figures. The close was barely steady as a result of realizing, but last prices were from 8 to 14 points higher.

Business was quiet enough during the morning to suggest that scattering accounts had previously been pretty well evened up for over the bureau. Cables were a shade better than due, which seemed due to reports of continental buying, and the local market opened steady at an advance of 2 to 3 points. There was not enough demand to maintain this improvement, however, and toward midday the market eased off under scattering liquidation, which seemed due to reports of showings in central Texas. Just before the government report was issued prices were 2 or 3 points net lower, but quickly rallied, closing within 4 or 5 points of the best. Indications pointed to lower temperatures in the southwest, which led to predictions of showers, and while local weather forecasters said barometric conditions did not point to any general rain, it was claimed that conditions were somewhat improved. This probably tended to modify the influence of the comparatively low condition figures to some extent.

The week-end figures attracted no particular comment and were hardly a factor in the day's trading. Liverpool will remain closed from today until next Tuesday morning.

New Orleans, Aug. 1.—The one feature of the day in the cotton market was the report of condition of the growing crop on July 25. The percentage of 79.6 of the normal was considerably lower than expected and led to a buying wave that put the most active shippers up about 10 points. The advance would have been much wider but for the fact that speculative buying was restricted by the agitation against future trading in cotton now being carried on in Washington. The condition report showed a loss for the month of July of 2.2 points, and was 4 of a point under the ten-year average of 80 per cent. December rose 10 points in the five or ten minutes after the issuing of the figures. Other new-crop months showed less advances. The old crop was inactive.

The market was steady, unchanged to 6 points down, compared with yesterday's close. Cables were unfavorable, but selling was prevented by the present dry weather in the eastern belt and the forecast for fair weather for west Texas and Oklahoma. It closed the time of the report, the market stood at a net loss of 2 to 3 points. This was quickly recovered, in the trading that followed the report, and in the early afternoon the near months were 12 to 14 points up. The close was at a net gain of 3 to 5 points.

PASS ORDINANCE FOR WATER BOARD

TAMPERING WITH METERS EN-TAILS HEAVY FINE-CAN'T CONNECT.

Two ordinances intended to do away with troubles that the water commission has experienced in the past were passed by the city commission yesterday morning. One of these provides a penalty of not less than \$5 nor more than \$50 upon conviction of any person who tampers with, removes or interferes with a water meter. The other proposes to regulate the use of fire hydrants by contractors and others who attach hose to the hydrants.

Both were recommended to the commission by S. J. Quay, superintendent of the water department. The first ordinance is aimed at persons who tamper with water meters. The superintendent says there is much expense occasioned the water department by reason of people tampering with the water meters installed at their places, and also by reason of some who attempt to "cheat" the meter by turning the register back. Since the installation of meters by the water department, Superintendent Quay said, there had been much trouble from that source.

The other ordinance will compel all who attach to fire hydrants to get permission from the water company to do so. It is also said they use a stem valve by making the attachment, which quickly wears out the hydrant.

Both ordinances take effect after publication.

TO HOLD INSTITUTE

LAW REQUIRES COUNTY SUPER-INTENDENT TO HAVE IT BEFORE JANUARY 1.

All Teachers Must Attend Five Full Days or Certificate May Be Cancelled.

As a means of improving the instruction in the public schools of the state, and of thereby giving to the children better schools, because teaching is the most important factor in the process of education, the law requires that each county superintendent shall organize and conduct a county teachers' institute of five consecutive days of seven hours each within the first four months of the school year. The school year begins September 1, and each county in the state is, therefore, required to have its county institute before the first day of January next.

State Superintendent Bralley has just mailed a letter of advice and instruction to the county superintendents with respect to the county teachers' institute to be held this year, and the following paragraphs are taken from said letter:

"All teachers who are under contract, either verbal or written, at the time the institute is held are required to do so renders their certificates liable to cancellation. Some county superintendents heretofore have excused bad teachers in selecting the most suitable time for holding the county teachers' institute. The institute should be held at a time that will not interfere with the regular sessions of the schools, the best time being the week preceding the date on which the schools of the county open. The institute should not be held during Christmas week, the week just preceding the Christmas holidays, or during any week that requires all the schools to close.

"Do not hold the institute in the court house or a public hall, if a school house is available. The institute for the five days should be a well organized professional school, and should be held in a school house where blackboards, libraries, and apparatus are available. The 'mass meeting institute,' in which merely essays are read and orations are delivered is especially to be condemned. Where the number of teachers is sufficient, the institute should be divided into a primary section, an intermediate section, and a high school section, and the most experienced and skillful teachers should be put in charge of the subjects of each section. The teachers should be required to bring their note books, pencils, and textbooks that they expect to teach, and on a program carefully worked out by the county superintendent several weeks in advance should do systematic, orderly and effective work for their academic and professional improvement.

"Sutton and Horn's 'Schoolroom Essentials' should be made the basis of the work in methods and management, and Poech's 'American Rural School' should be made the basis of the work on rural life problems. In some county teachers institutes heretofore much valuable time has been wasted because the work was not properly planned, and as a consequence could not be intelligently executed. Wherever practicable, the teacher of the cities and towns of the state should co-operate with the county superintendent and the county teachers, for by intelligent planning, sympathetic co-operation, and faithful performance of duty on the part of all, the institute week can and should be made the most valuable week in the school year for improving the educational work of the county.

"The institute in this county will be held September 1 to 5.

Hotel Man Catches 'Possum. Shortly after midnight this morning, the night clerk of the Royal hotel found an opossum up against the street door of the hotel. An attempt was made to locate the owner, but was unsuccessful. The animal is being held at the hotel.

It is one thing to make soda crackers that are occasionally good.

It is quite another thing to make them so that they are always better than all other soda crackers, always of un-varying goodness.

The name "Uneeda"—stamped on every biscuit—means that if a million packages of Uneeda Biscuit were placed before you, you could choose any one of them, confident that every soda cracker in that package would be as good as the best Uneeda Biscuit ever baked. Five cents.

NATIONAL BISCUIT COMPANY

ORDINANCE FOR UNDERGROUND WIRING GIVEN FIRST READING

Texas Power & Light Company Only Concern Objecting, Mackey Declares—Place Cost at About \$500,000—Department Heads to Assist.

City Attorney John Maxwell presented to the city commission yesterday morning the draft of an ordinance which will, on final passage, require that all wires in all streets and alleys within the fire limits of the city be placed under ground in so far as this is practicable. This was in compliance with the commission's instructions to the attorney, given some weeks ago. At that time the matter was taken up and thoroughly discussed, with the result that the commission decided such an ordinance was needed. Mr. Maxwell has given much thought and time to the proposed measure. After reading the ordinance the commission decided to refer it to the city electrician and the city engineer in order that each should study the matter, with the view of making any suggestions that might aid to the efficiency of the law.

It was also decided to send a copy of the proposed ordinance to each of the public service companies that would be affected by the law. This will not be done, however, until the ordinance has been finally shaped up as the commission, city attorney and

city electrician and city engineer determine. The ordinance as presented by Mr. Maxwell yesterday provides for a penalty of \$50 per day for each day any company shall refuse to conform to the provisions of the law, and each day is made a separate offense.

In connection with the discussion of the proposed ordinance yesterday, Mayor Mackey said all the public service companies in the city were either in favor of or did not oppose the ordinance, with the exception of the Texas Power and Light Co. This company, he said, claims the law will result in their being compelled to spend between \$400,000 and \$500,000. Mayor Mackey said, however, it would cost them less at this time than in the future to place their wires under ground, and as it would eventually become necessary, the best time to do it is now.

It is understood that the ordinance will not seriously affect the two telephone companies, as their wires in the fire limits are under ground to a great extent.

The commission is a unit on the ordinance, and all the members are in favor of its final passage is the agreement between all city heads as to the proper drafting of the measure.

MAYOR SAYS CAR SERVICE NEEDED

DOES NOT BELIEVE TRACTION COMPANY SHOULD BEAR COST—SELEY TALKS.

"In my opinion," declared Mayor J. H. Mackey yesterday afternoon, "street car service to Belmond should be secured by all means. But to compel the Traction company to construct the line would not be the proper thing. I think the people living at Belmond and owners of additions that would be opened up by such service should assist.

"The cost of laying track, erecting poles and trolley wires, I am told, will total about \$10,000. I believe that the line would pay for the beginning.

"It looks to me that the best thing to do would be to make the Belmond service a continuation of the East Waco service. This would eliminate the disadvantages and expense of a shuttle car.

"I have been told by a number of people that live there that absence of convenient transportation into the city has had the effect of keeping down the growth of Belmond and of necessitating the people to obtain their supplies and goods from other towns. One man I know, a railroadman, purchases everything he requires from Cisco. The business men are overlooking something in letting the matter lie dormant.

"While I am not in possession of complete information about Belmond, I am inclined to believe that street car service is greatly needed. I am in sympathy with any movement that will advance the interests of Waco."

Held as Suspect. Leon Alcorn, a Mexican, is being held in the county jail as a suspect. He was arrested by Deputy J. M. Morgan yesterday afternoon, just after he had been indicted as interpreter at a trial in Justice Harvey M. Richey's court. The officers believe Alcorn is wanted in the eastern part of the state. The man has a pass over the Cotton Belt railroad and claims to be here to secure Mexican laborers for railroad work near Mount Vernon, Texas.

From the effects of a beating which he received at the hands of thugs Thursday night, Zavala Rodriguez, Mexican laborer, died at the Providence sanitarium yesterday. Death presumably was caused from a hemorrhage of the brain caused from a blow on the head. The man was found at an early hour Thursday morning near the steel bridge by Patrolman Tom Gross. He was conveyed to the sanitarium, where he became unconscious. Before lapsing into insensibility he told the police, through an interpreter, that he had been set upon, beaten and robbed by three men of his own race.

Dr. R. J. Alexander attended the man. He said the man died from the effects of the beating he received.

Justice J. J. Padgett is conducting an inquest. The dead man was about 30 years of age. He was unknown here.

ORDER DELAYED THINKS HOFFMAN

MERCHANTS FEAR "WINDOW ENVELOPE" IS UNDER BAN. BURLESON'S RULINGS.

While many of the business firms of the city fear that the postmaster general will put into effect an order abolishing the "window envelope," it is the opinion of Postmaster W. H. Hoffmann that the use of the envelope will not be abandoned until the present supply has been used.

The envelope in question is the variety containing a transparent slip, through which the address is visible. Under the latter provision is folded so as to comfortably fill the envelope and leave no room for slipping around, serious trouble is given the mailing clerks. At times it is necessary to send many of the letters back to this mailer, or else the clerk loses time in trying to make the address visible.

The use of this envelope has become wide from the reason that the work of addressing is eliminated on the outside cover.

The following is a late order by the postmaster general concerning their use:

"To allow space for postmarking, the envelope shall not occupy space within 1 1/2 inches from the top nor within 1/2 inch from the bottom or ends of an inch from the left or right edges of the envelope, and it shall not be more than 5 1/2 inches in length nor more than 1 1/2 inches in depth.

"No coloring shall be added to the window. It must be as transparent as possible."

PASS SUPPLEMENTARY SEWER CONTRACT OVER DOLLARS' VOTE

Ordinance Governing Placing of Poles and Wiring Held Up—Foster Recommends Granting Franklin Street Paving Petition.

With Commissioner Dollins voting no, the supplementary contract between the city and the A. W. Koch company, which amends the original contract and provides the sewer mains to be constructed in Highland street and Second street, was not taken over by the city until the expiration of two years, was passed by the city commission yesterday morning.

Amendment to the original contract was asked at a previous meeting. When the supplementary contract was presented to the commission, that body did not like the wording of the contract and referred it back to the city attorney. Commissioner Dollins has opposed the proposal of the company that the city not take over the sewer main for a period of two years from its inception, and his was the one dissenting vote on the question yesterday.

The ordinance regulating the placing of poles and overhead wiring by public service concerns was called for reading, but was laid over. The ordinance provides a penalty of \$25 for a violation of its provisions. Its aim is to prevent the placing of telephone, telegraph and other poles where they will obstruct the streets and sidewalks, or prove an unsightly object in front of property, also to provide safe construction for wiring.

The ordinance has the support of the commission as a whole and will probably pass finally.

Commissioner Foster yesterday recommended that the petition asking for the paving of Franklin street from Third to Second street be granted. The question of where the funds for the

work would come from was raised, and the matter was referred to Finance Commissioner Caulfield. The commission street being paved and will provide the money to do so as it can be done.

The city attorney reported the petition to pave Bridge street from the square to the river was in proper form. The city attorney was instructed to draw up a supplementary contract with Alexander Brothers for the paving of North Second street from the square to Washington street.

Routine Matters. E. R. Nash of Nash-Robinson company appeared before the commission with the request to be allowed to change an alley which runs through property owned by his company, which consists of a block of land between Franklin and Mary and Twentieth and Twenty-first streets. The commission will investigate the proposal before giving an answer.

Finance Commissioner Caulfield reported the Cotton Belt railroad had sent in a check covering the estimates due by it for work on the Mary street sewer for the months of April, May and June.

The monthly report of Tax Collector Stribling showed \$15,495.97 collected.

Sidewalk maintenance bonds of W. V. Tyler and Burt Lyle were presented and referred to the finance commissioner.

Petition of S. M. Hamilton to erect a two-story brick building at Third and Jackson streets, of F. E. Goodman to erect an iron building on Bridge street just north of the river, and of the Pilsbry estate to erect two brick flues at 216 North Fourth street were referred to Commissioner Dollins.

APPOINT HEADS OF DEPARTMENTS

AT MEETING AT HOME OF MRS. BASS, CHAIRMEN OF WOMEN'S DIVISION ELECTED.

Each Will Immediately Organize Her Forces for Work on 1913 Cotton Palace.

At a meeting of some of the women interested and officers of the Cotton Palace association, held at the home of Mrs. J. W. Bass yesterday, announcement of the chairmen of the various women's departments of the next Cotton Palace was made. Besides the women President W. H. Hoffmann, Secretary S. M. Mayfield and Publicity Agent M. N. Davis were present. A general discussion of plans for the women's exhibits at the annual palace was engaged in and those in attendance consider the outlook very favorable for one of the best displays ever made.

Mrs. J. W. Bass, who is general chairman of the women's department of the Cotton Palace, has been working some days lining up her forces and she has secured the promise of the following to act as chairmen of the various departments: Cotton Modeling—Mrs. John B. Cooper.

Art Department—Waco Art League, Mrs. A. H. Newman, president. Arts and Crafts Exhibit—Mrs. W. E. Spill.

"Coca Exhibit—Mrs. Wm. Green. Textile—Mrs. J. S. Hill. Culinary—Miss Ester Gross. Historical and Curio—Mrs. Jno. F. Marshall.

Library Booth—Mrs. O. L. Stribling. Call of the Women Exhibit—Mrs. A. W. Koch.

Women's Labor Saving Exhibit—Mrs. E. C. Woswig. Italian—Mrs. Joe Pinto. Bohemian—Mrs. M. J. Maganic. Japanese Booth—Mrs. A. Wilkes. Daughters of Confederacy Booth—Mrs. V. J. Downs. Floral—Mrs. Jno. G. Fall. Women's Day—Mrs. F. J. Lenox.

Each chairman will get her forces organized and decide upon what fees she will show in her department, return the first of September. In the meantime the chairmen of the various departments will carry on their work.

4,763 Lineal Feet Sidewalks Built

For the month of June, the report of Sidewalk Inspector M. E. Carothers shows that a total of 4,763 lineal feet of sidewalk were laid. Curbs constructed total 453 lineal feet.

The report shows that sidewalk construction work is in progress in every part of the city. Places that have been bare of suitable walks for years are now being equipped with concrete walks, enhancing the beauty and value of property lying near it. The work is being pressed by the inspector and Commissioner J. W. Foster, and through their efforts many property owners have been induced to put down walks.

The report will be given the commission at its meeting Tuesday.

Sedberry Attacks Costley After Double Water Fete

"Kiddy" Sedberry, a negro religious fanatic, attacked Jailer 26 Costley in the county jail yesterday afternoon, putting up a stiff fight before he was subdued. Costley had just unlocked the door of the cell where Sedberry was held for the evening meal. Sedberry made a run at him, striking him in the face. The jailer swung the door of the cell shut and succeeded in driving the crazed negro back.

Sedberry was arrested by city police yesterday afternoon while he was entering on a baptismal service in the Brazos river with imaginary converts. He was standing in the water to his waist, preaching and singing, and going through the motion of baptizing. An old negro employed at the garbage plant near the river heard Sedberry's baptismal talk and ventured to take a look at what he supposed was a church baptism. He found no one but the crazed negro going through the motion of a preacher baptizing new members of his flock. When Sedberry saw he

was discovered he attacked the old negro, and, it is said, inflicted minor bruises. He again returned to the river. The other negro repented the matter to the police. Sergeant Rotan and Patrolman Barnard went to the scene, but were unable to induce the man to leave the river. They finally secured a boat and, rowing close to him, lassoed him and dragged him to the bank. He was later placed in the county jail.

Sedberry was placed in a cell with three other negroes, and here again his fondness for water was shown, for he went to the hydrant and proceeded to squirt water on his cellmates. Totally cowed by the man's crazy actions, the three gave him all the room possible. Jailer Costley, not knowing that Sedberry was violent, opened the door of the cell for the trustee to put supper in, only to be attacked by the man.

Sedberry was later seized by two trustees and now occupies a closed cell in the jail.

Miss Jameson Tells Children the Story of "Rikki-Tikki-Tavi"

The children of Waco will be entertained this afternoon on the Public Library lawn at 4 o'clock by Miss Halie Jameson, who will tell the story of "Rikki-Tikki-Tavi." The story is taken from Kipling's "Jungle Stories," and is one of the most interesting of his animal tales.

For some time the story hour has been abandoned on account of there being no one here to take charge of the children. The young women who conducted the hour during the winter are now out of town on their vacations.

Caulfield Complains Against Conduct at Park Band Concerts

Complaint was again made by Commissioner T. A. Caulfield at the city commission meeting yesterday morning that the conduct of some who attended the band concert at Harrington park Thursday night was such as to disturb the musicians and those who came to listen to the music. Complaint had been made a previous meeting, when Mr. Caulfield reported the conduct at Sul Rose park was so bad as to interfere with the concert.

Police Commissioner Dollins, in response to Commissioner Caulfield's statement, said he had left instructions that a patrolman was to be sent to attend all concerts to preserve order, that the chief has instructed the sergeant to send a man to the park, and that he thought the instructions had been carried out. He said, however, he learned the sergeant had detailed a man to go to the park, but had later given him a call to make, which caused the patrolman to be late in reaching the park. He said he understood the policeman arrived at the park at about 9:30 o'clock. The concert was almost completed at that hour.

Mr. Dollins further said he would see to it that a patrolman was at the park in the future.

Continue Effort to Get Deep Well

As a result of the meeting yesterday morning at the Chamber of Commerce of the committee representing the directors and stockholders of the Hot Wells Development company, J. J. Dean was appointed to confer with concerns desiring to sink deep wells for hot water or valuable mineral products. It is understood that several people are interested in digging such a well, and he will take the matter up with them.

The company now has a total of \$6500 in the treasury. Members of the committee representing the development company are J. P. Bahl, J. J. Dean, J. P. Powell, A. R. Roberts and George Rolan.

Personal Mention.

W. H. Powell spent Friday in the city from Jacksonville.

M. T. Gaffney and Mrs. Gaffney of Corpus Christi are visiting friends here.

E. E. Cornelius is here on business from Dallas.

A. J. Smith of Brownwood is registered at the New State House.

Dan Seagriff is a recent arrival in Waco from Austin.

R. R. Farny is visiting friends. He is from Fort Worth.

NOTICE

About August 1st we will remove our Retail Store and Offices to the Horne building on Austin near Sixth street. Our factory will remain in its present location. The room, 100 feet, now occupied by our store and offices, will be for rent about August 1st. We will rent it as a whole or will subdivide it into four stores 25x40 feet.
